1 Educational policies of the Nara Institute of Science and Technology

1 Educational policies of the Nara Institute of Science and Technology

1－1. Objectives, Educational mission, Objectives for individual development, Educational policy

○Objectives

As a graduate institution without undergraduate courses, NAIST promotes cutting edge research and offers a sophisticated outcome-based education for each student so as to contribute to the advancement of science and technology and of society as a whole.

○Educational mission

NAIST was founded in October 1991 as a graduate institution which educates individuals who will contribute to the development of advanced science and technology. Research and education at NAIST covers the three core areas: information science, biological science and materials science.

In order to realize a suitable standard of living for people throughout the world in the 21st century, and indeed to secure our very survival, the coming generation of leading researchers must possess the highest scientific and technical competence, along with a clear grounding in professional ethics. At NAIST, we aim to cultivate such researchers and educators.

Therefore, in addition to the areas of information science, biological science and materials science, we actively encourage interdisciplinary research and provide educational training in the principles of ethics and intellectual property.

○Objectives for student development

Education and research in NAIST master's course cultivate sophisticated expertise and personal initiative to support society and the economy. The doctoral courses are designed to nurture students to become researchers and engineers with the drive to seek new frontiers in science and technology and to take on leading roles internationally.

○Educational policy

In addition to a specialized education, the wide-ranging curriculum cultivates ethical thinking, vision, theoretical thinking, comprehensive judgment and sharpened writing skills.

Educational programs to produce human resources who will pursue new interdisciplinary research fields are executed and those to produce human resources with a thorough, globally-focused understanding, which include collaborative programs with our overseas education and research partners, are offered.

Internal and external evaluations are implemented to continuously improve the quality of education, while enrichment of the education and research environments and the financial support for talented students are being promoted.

１－２．Admission Policy

＜Master's course＞

○Prospective students

We are looking for students, researchers or engineers who have fundamental academic skills, a clear vision, a resolve toward the future, and a strong interest in and motivation for advanced science and technology, regardless of their background or undergraduate major. Especially, we actively accept applicants who have the ability to reason logically and accurately express their thoughts, and those who are very inquisitive and have the ability to tackle challenges.

○Basic admissions policy

In order to select outstanding persons with the above qualifications both domestically and abroad, we stress assessment of applicants' character and capability. There are various routes for admission, including examinations centered upon interviews as well as examinations based on recommendations.

＜Doctoral course＞

○Prospective students

We are looking for students, researchers or engineers who have fundamental academic skills, a clear vision, a resolve toward the future and a strong interest and motivation for advanced science and technology regardless of their background. Especially, we actively accept applicants who have a strong interest in making the best use of their wide breadth of expertise to solve various problems facing society, and are aiming to be active in various fields of advanced science and technology.

○Basic admissions policy

In order to select outstanding persons with the above qualifications both domestically and abroad, we stress assessment of applicants' character and capability. There are various routes for admission, including examinations centered upon interviews as well as examinations based on recommendations.

1－3．Diploma Policy

In addition to the three cutting-edge science and technology fields – information science and engineering, biological science, and materials science and engineering – NAIST actively promotes the exploration of related interdisciplinary fields in response to increasing societal demands in order to foster scholars with both a deep understanding of their own specialization and thorough knowledge of the related fields that will contribute to leading the next generation of advanced science and technology with holistic perspectives, a spirit of challenge, multi-disciplinary understanding and a global outlook. NAIST operates an accredited degree-granting process based on an educational program to achieve these objectives and a multifaceted educational research advising body structure (multiple faculty members with different viewpoints advise and guide students).

＜Master’s course＞

Master’s degrees shall be given to students who understand the basic concepts of advanced science and technology (information science and engineering, biological science, materials science and engineering, and their interdisciplinary fields) achieved through “advanced science and technology subjects” and are able to apply their expertise to problem solving, who have the skills to perform research in a specific field or technology development obtained through “research-based subjects,” and who have acquired excellent international communication skills and high ethical standards through “general subjects.” They will also have been enrolled in the course for the stipulated period, acquired the necessary credits, and passed the master's thesis review and examination.

＜Doctoral course＞

Doctor’s degrees shall be given to students who have advanced expertise and skills based on an understanding of a wide range of theories and systems of advanced science and technology (information science and engineering, biological science, materials science and engineering, and their interdisciplinary fields), who have the ability to discover and solve problems developed through “subjects fostering independent researchers,” and who have global communication skills, high ethical standards and a holistic perspective, and the ability to exercise leadership in advanced science and technology fields. They will also have been enrolled in the course for the stipulated period, acquired the necessary credits, have submitted an internationally valid doctoral thesis, and passed its review and examination.

１－４．Curriculum Policy

The Department of Science and Technology has a highly organized educational program that focuses on the acquisition of specialized knowledge in information, biological and materials sciences, and their interdisciplinary fields of research, while also equipping students with the spirit of challenge, well-roundedness, interdisciplinary understanding and a global perspective necessary for human resources who will contribute to the development of the next generation of science and technology, and the activities and developments in both industry and society. With a strong emphasis on the interdisciplinary developments of existing research fields, programs with a high degree of flexibility and an interdisciplinary focus to accommodate students' career and future objectives have been established in the master's course, and programs focusing on the development of internationally adept students who are independent and self-reliant have been established in the doctoral course.

＜Master's course＞

For the master's degree, we will implement programs with high flexibility and interdisciplinarity depending on students' career and future objectives, with a focus on interdisciplinarity.

1. Implementation of introductory subjects to introduce general science and technology trends necessary for studying advanced science and technology and holistically grasping them.
2. Introduction of subjects to provide basic knowledge of advanced science and technology and to develop comprehensive understanding, which also appeal to students from diverse fields who want to study in areas outside of their specialized fields
3. Introduction of subjects to provide highly specialized knowledge of advanced science and technology
4. Introduction of PBL subjects to develop the ability to grasp issues comprehensively, to discover and solve problems in cooperation with others, and to overcome challenges
5. Introduction of subjects to improve presentation and communication skills that are necessary to be active professionally in society.
6. Establishment of subjects to foster the ability to study and understand the ideal relationships of science and technology within industrial and societal activities, with the cooperation of industry and the government
7. Introduction of subjects to improve English communication skills for Japanese students and Japanese communication skills for international students for researchers and engineers
8. Introduction of subjects to enhance ethical thinking and foster a broader perspective of trends in society that are required for researchers and engineer

＜Doctoral course＞

The doctoral course provides programs focusing on the development of an international-focus understanding, independence, and self-reliance for its students.

1. Introduction of subjects on state-of-the-art expertise in information science, biological science, materials science and the fusion of these research fields.
2. Introduction of subjects to foster the ability to envisage their relationships with society including broad perspectives based on interdisciplinary knowledge, comprehensive understanding and career paths.
3. Introduction of subjects to develop ability to plan and execute research projects independently, to solve problems and pursue boundaries of science and technology.
4. Introduction of subjects focused on the acquisition of presentation and communication skills necessary for successful international activity.

１－５．Code of Conduct for Research Activities at NAIST

February 21, 2008

Code of Conduct for Research Activities at NAIST

“Research activities” refers to actions that generate new findings and construction of systems of knowledge based on reflections, thinking, and ideas while continually using facts and data obtained by means of surveys, observations, experiments and other activities as raw material, building on the results of studies carried out by previous researchers.

The fruits of such activities form the building blocks for the common intellectual assets of humanity, underpinning human happiness as well as economic and social development.

Such research activities have as their premise the integrity of researchers toward their research activities. Dishonest behavior, including the fabrication or falsification of data or results, plagiarism of the results of others’ work, multiple publication of the same results, and inappropriate authorship whereby the authors of a paper are not attributed correctly, is contrary to the basic character of research activities. Such actions are unacceptable under any circumstances, and will be dealt with severely.

Given this fundamental awareness of research activities, NAIST has set out the following Code of Conduct outlining the behavior expected of all those involved in research activities at the institute (hereafter “researchers”) during the performance of research.

1. Responsibilities of Researchers

Researchers shall be responsible for ensuring the quality of the specialized knowledge and techniques they themselves generate, and shall also be responsible for using their specialized knowledge, techniques, and experience for the safety and well-being of society, and for environmental preservation.

2. Actions of Researchers

Researchers shall act with integrity on the basis of earnest beliefs, constantly reviewing their positions toward and approaches to research in the awareness that the autonomy of science is built on the trust and mandates of society. They shall both make the utmost efforts to demonstrate the accuracy and appropriateness of the knowledge generated by their research in a scientific and objective manner, and participate actively in the mutual evaluation of researchers within the scientific community, particularly in their own fields of specialization.

3. Self-Improvement

Researchers shall endeavor to maintain and improve their own specialized knowledge, abilities, and skills, and shall also strive unremittingly to understand the relationships of science and technology with society and the natural environment from a broad perspective.

4. Explanation and Disclosure

Researchers shall proactively disclose and explain the significance and roles of the research in which they are involved, assessing the potential effect of this research on humanity, society, and the environment as well as any changes it may cause, and shall publish the results in a neutral and objective manner, while striving to achieve and maintain a constructive dialogue with society.

5. Research Activities

Researchers shall act with integrity and in accordance with the spirit of this Code of Conduct during the process of making proposals, planning, submitting applications, carrying out research, reporting, and conducting other activities connected with their own research. They shall be scrupulous with respect to the recording and storage of research and survey data and its strictly impartial treatment, without engaging in dishonest behavior such as fabrication, falsification, or plagiarism, nor shall they be complicit in such behavior.

6. Improvement of Research Environments

Researchers shall be aware that the establishment and maintenance of a fair and open research environment that enables the execution of responsible research and the prevention of dishonest behavior is also an important obligation, and shall be actively engaged in improving the quality of research environments of both the scientific community and the organization to which they belong. They shall also strive to obtain the understanding and cooperation of society in order to achieve this.

7. Appropriate Use of Research Funds

When using research funds, researchers shall comply with all applicable legislation, institute regulations and other rules, in addition to conditions, rules for use, and other stipulations established for all types of externally funded research.

8. Concern for Research Subjects, the Environment, Safety, and Related Issues, and Respect for Bioethics

Researchers shall respect the persons and human rights of those who cooperate in their research, and shall take their well-being into account. When dealing with materials that could have an adverse effect on the environment or safety during the execution of research (radiation, radioactive isotopes, genetically modified organisms, nuclear fuel material, non-native species, poisonous materials, environmental pollutants, etc.), they shall comply with all applicable legislation, institute regulations, guidelines and other stipulations issued by academic societies and other bodies concerned, and shall have the greatest possible respect for bioethics in research involving human or animal subjects.

9. Interpersonal Relationships

Researchers shall both evaluate others' results appropriately and listen humbly to criticism of their own research, exchanging opinions with an attitude of sincerity. They shall comply with the obligation of confidentiality concerning the intellectual property rights of others. In particular, they must pay strict attention to compliance with the obligation of confidentiality concerning information obtained during the review process for papers or research funding. They shall also endeavor to protect

individuals' privacy through the appropriate handling of personal information obtained during the research process.

10. Elimination of Discrimination and Harassment

Researchers shall not discriminate against any individual on the basis of his or her race, gender, rank, ideology, religion, or for any other reason, but shall treat each person fairly while respecting the freedom and character of the individual. They shall not use their status or authority to impede or disadvantage any person under their instruction, guidance, or similar circumstances in either word or deed.

11. Conflicts of Interest

Researchers shall pay careful attention to any conflict of interest that may arise between an individual and his or her own institution or another organization in the course of their research, review, evaluation, judgment, or other undertaking, and shall deal with it appropriately while giving due consideration to its public nature. Researchers shall also comply with the NAIST Conflict of Interest Policy and related policies.

１－６．Financial Support Policies for Nara Institute of Science and Technology Students

Financial Support Policies for Nara Institute of Science and Technology Students

Nov. 21, 2018
Board of Directors Approved

Nara Institute of Science and Technology (Hereinafter referred to as "NAIST") is a national graduate school institution without undergraduate programs that promotes cutting-edge research and educates students through advanced curriculum in order to contribute to developments in science and technology, and the advancement of society.

To achieve the above goals, NAIST actively admits highly motivated students both domestically and abroad that will rise to the challenge of advanced science and technology research and will pursue leading roles in society. For this, assisting prospective students in understanding the appeal and benefits of studying at NAIST is a very important issue. NAIST has established the policy of offering financial support as permitted to motivated students in order to further promote an environment conductive of academic pursuits and research without worrying about financial burdens, as part of the appeal of NAIST as an educational choice.

The following programs, etc. are to be implemented as financial support based on the above policy.

1. NAIST Excellent Student Scholarship Program (for doctoral course students)
Those 1st year doctoral students whose academic performance in the master's course is recognized

as outstanding and as having distinguished character may have the year's tuition exempted in full. However, this program is not applicable to MEXT Scholarship recipients or NAIST International Scholar Program participants. Up to 15 students are eligible for this program every year

2. Financial support for students from the workforce (for doctoral course students)

Those doctoral students whose academic performance is recognized as outstanding and as having distinguished character may have their tuition exempted in full, and also receive a scholarship. Those employed part-time or by contract (those not employed in a fulltime permanent position) and those whose tuition is being paid for by the company for which they are or were employed are not eligible for this support.

3. NAIST International Scholar Program (for doctoral course international students)

The following support is given to those students who passed the Screening of International Students by Special Recommendation and are privately financed international students. (International students other than those sponsored by or receiving scholarships from the Japanese or any other government)

(1) Payment of transportation costs from their country to Japan
(2) Employment as a Research Assistant
(3) Entrance fee exemption
(4) Tuition fee redemption
(5) Other support as deemed necessary by the NAIST President

・The number of students to be supported is decided each year considering budget allocation.
・The period of support for this program is the 3 years residing in the doctoral course. However, no support is offered during leaves of absence.

4. Ministry of Education and Training Vietnam International Education Development Scholarship (VIED Scholar) Program (for Vietnamese students)

The following support is provided for those privately-financed international students that enter NAIST upon passing the screening held by Vietnam International Education Development of Ministry of Education and Training, Vietnam.

(1) NAIST examination fee exemption
(2) Entrance fee exemption
(3) Tuition fee exemption

・Up to 3 additional students may be eligible for this support each year.
・The period of support is limited to 2 years for the master's course and 3 years for the doctoral course.

5. Chinese Government Scholarship Program at NAIST (for Chinese (PRC) doctoral students)

The following support is provided for those privately-financed international students that enter the NAIST doctoral course as Chinese Government Scholarship Program Doctoral Research Students under the China Scholarship Council

(1) NAIST examination fee exemption
(2) Entrance fee exemption
(3) Tuition fee exemption

・Up to 3 additional students may be eligible for this support each year.
・The period of support is limited to the standard period of study for the doctoral course.

6. Tuition Exemption Program for students facing financial difficulties (For master's and doctoral

students)

The exemption screening is held for each exemption group of the master's and doctoral courses, and all those deemed eligible by financial and academic standards have half their tuition exempted, within bounds of the total amount determined for each of the programs.

In cases when there is still funding available after all the eligible master's students have received exemption of half of their tuition, doctoral students found to be in great financial need may receive full exemption of their tuition in order of that need.

7. Priority TA/RA Assistantship Program (for 5-Year Integrated Course and doctoral course students)

Financial support equivalent to half of tuition fees is provided from the second year of the master's course through TA/RA assistantship support, and additional support may be made available according to the characteristics of student research areas.

8. Prioritized dormitory housing (for 5-Year Integrated Course and doctoral course students)

Students who plan to continue their studies in the doctoral program at NAIST (only when this is expressed at the time of master's course enrollment)and doctoral students are given priority to reside in the dormitories if they desire to do so.

9. Priority recommendation for Jasso student loans (Type I & II student loans) [for 5-Year Integrated Course students]

Prioritized recommendation is given to 5-Year Integrated Course students who wish to receive JASSO student loans and fulfill the necessary requirements for them.

2 Concept of the Graduate School of Science and Technology

2 Concept of the Graduate School of Science and Technology

2－1. Concept of the Graduate School of Science and Technology

＜Objectives＞

NAIST will create innovation by undertaking revolutionary research that moves ahead of current trends, especially by creating interdisciplinary research areas by removing the boundaries of traditional research fields. At the same time, NAIST aims to train leading researchers with an aspirational spirit and creativity and engineers with highly advanced expertise through a systematic curriculum, which we have cultivated since our foundation, that covers wide-ranging fields from the most advanced information sciences, biological sciences, and material sciences to interdisciplinary fields that include all of the above.

＜New Graduate School Features＞

- Removal of barriers between fields for a dynamic educational structure where diverse faculty will perform education together at the forefronts of science and technology
- An educational format facilitating diverse coursework to respond thoroughly to students' needs and interests
- Seven 'Education Programs' established to disseminate highly specialized knowledge and training
- An educational system for basic and advanced knowledge to prepare students for diverse pursuits, and to allow them to reach beyond their expertise
- Practical training at private businesses or workshops taught by researchers and engineers from private businesses will be offered to implement project-based learning seminars which include real-world applications based on societal needs.

＜Objectives for each individual student＞

Master's Courses cultivate sophisticated expertise in information sciences, biological sciences, or material sciences in order to support society and the economy, wide-ranging qualities to engage in interdisciplinary fields that cover them, a comprehensive perspective to see the entirety of society, and a willingness to be at the forefront of science and technology in society and create innovation.

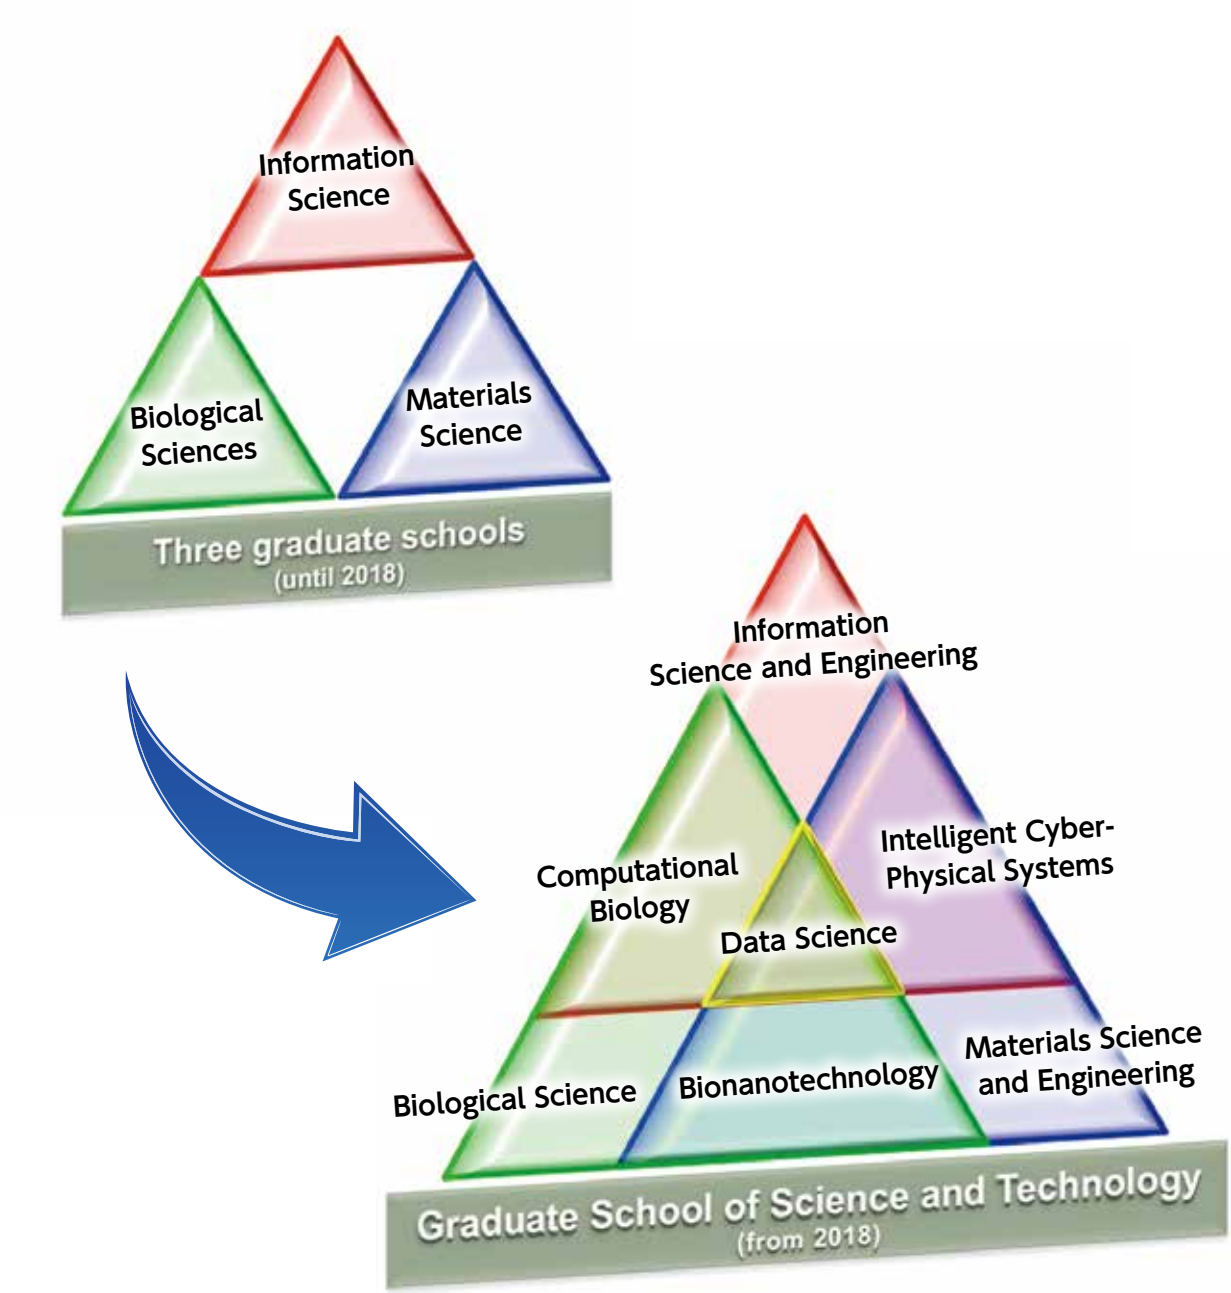
In addition to developing highly advanced knowledge and broad perspectives in information sciences, biological sciences, or material sciences and related interdisciplinary fields, the Doctoral Courses are designed to nurture in researchers and advanced specialized engineers the aspiration to take on challenges in science and technology research with an international mindset, initiative, and independence, and to play a leading role in international society covering industry, government, and academia.

＜Diverse career options＞

Students will obtain a wide range of knowledge, both within their specialized fields and through interdisciplinary development and critical thinking, that will open a wide array of career opportunities.

２－２．Seven Education Programs

The Graduate School of Science and Technology offers seven Education Programs to choose from. Programs based on information sciences, biological sciences, and material sciences, which have been cultivated since the school's foundation, include Information Science and Engineering, Biological Science, and Materials Science and Engineering. Interdisciplinary programs that combine these disciplines include Computational Biology, Intelligent Cyber-Physical Systems, Bionanotechnology, and Data Science. The curriculum framework allows students to take courses to obtain advanced specialties while pursuing their career paths.



○Seven Education Programs facilitating research in leading-edge science and technology

Information Science and Engineering	Degrees granted Master's / Doctorate (engineering, science)
A focused program fostering students to support our dynamic advanced information society, implementing further achievements in diverse fields. This program cultivates specialized knowledge and skills in computer hardware/information network technology, computer/human interaction and media technology, and computer systems to utilize robotics.	

Computational Biology	Degrees granted Master's / Doctorate (engineering, science, bioscience)
An interdisciplinary program fostering students able to collect and analyze the huge amounts of data related to the phenomena of life, such as medical imaging data and the enormous amounts of bio-information concerning genes, proteins, and metabolism, while producing researchers who will undertake the development of these technologies.	

Biological Science	Degrees granted Master's / Doctorate (bioscience)
A focused program fostering students to lead societal development and environmental protection in areas such as energy, food supply, resources, and life/health quality. This program enhances knowledge and expertise from the basic principles of the phenomena of life to biodiversity at the molecular, cellular and individual levels of plants, animals and microorganisms.	

Bionanotechnology	Degrees granted Master's / Doctorate (engineering, science, bioscience)
An interdisciplinary program fostering students to pursue new trends in bioscience based on materials science, and lead novel functional material creation, including development of pharmaceuticals, medical engineering materials, new polymers imitating biological functions, plant-based active components, and artificial protein materials, investigations of novel chemical compounds to augment plant functions, and exploration of cellular engineering to support regenerative medicine.	

Materials Science and Engineering	Degrees granted Master's / Doctorate (engineering, science)
A focused program fostering students with foundational knowledge of materials science and advanced knowledge to fully utilize their expertise in a program spanning solid state physics, device engineering, molecular chemistry, polymeric materials and bionano-engineering, and undertake next generation science and technology to maintain affluent living and support societal development.	

Intelligent Cyber-Physical Systems	Degrees granted Master's / Doctorate (engineering, science)
An interdisciplinary program fostering students able to holistically grasp areas including functional material design, novel and real-world sensing devices, analytical device design, system structuring to fully utilize analysis results, and machine and robot control systems, and who have specialized knowledge and experience to support social systems of this IoT era.	

Data Science	Degrees granted Master's / Doctorate (engineering, science, bioscience)
An interdisciplinary program fostering students with a wide range of expertise in data- and AI-driven sciences in information, biological, and materials sciences, to find hidden ‘value’ and ‘truth’ through data processing, visualization, and analysis of huge amounts of data to contribute to science, technology, and societal development.	

※Degree type will be decided based on subjects taken and thesis contents.

○List of Educational Programs that can be selected for each laboratory

＜Information Science＞

Laboratory	PI (Principal Investigator)	Program of Information Science and Engineering	Program of Computational Biology	Program of Intelligent Cyber-Physical Systems	Program of Data Science
Computing Architecture	Yasuhiko Nakashima	○		○	
Dependable System	Michiko Inoue	○		○	
Ubiquitous Computing Systems	Keiichi Yasumoto	○	○	○	
Mobile Computing	Minoru Ito	○		○	
Software Engineering	Kenichi Matsumoto	○		○	
Software Design and Analysis	Hajimu Iida	○		○	
Cyber Resilience	Youki Kadobayashi	○		○	○
Information Security Engineering	Yuichi Hayashi	○		○	
Internet Architecture and Systems	Kazutoshi Fujikawa	○		○	○
Computational Linguistics	Yuji Matsumoto	○			○
Augmented Human Communication	Satoshi Nakamura	○			○
Network Systems	Minoru Okada	○	○	○	
Interactive Media Design	Hirokazu Kato	○		○	
Optical Media Interface	Yasuhiro Mukaigawa	○	○	○	
Cybernetics and Reality Engineering	Kiyoshi Kiyokawa	○		○	
Ambient Intelligence	Norihiro Hagita	○		○	
Social Computing	Eiji Aramaki	○			○
Robotics	Tsukasa Ogasawara	○	○	○	
Intelligent System Control	Kenji Sugimoto	○	○	○	○
Large-Scale Systems Management	Shoji Kasahara	○		○	
Mathematical Informatics	Kazushi Ikeda	○	○	○	○
Imaging-based Computational Biomedicine	Yoshinobu Sato	○	○		○
Computational Systems Biology	Shigehiko Kanaya	○	○	○	○
Robot Learning	Takamitsu Matsubara	○		○	○
Robotics Vision	Takeo Kanade	○	○	○

※The above information is as of February 2019 (including undecided April 2019). For educational programs that can be selected in the newly established laboratory, please check the latest information from the NAIST website etc.

２－３．Curriculum for Master's Courses

Master's Courses offer the following categories of subjects:

◇General Subjects

This category includes courses on ethics, philosophy, communication, intellectual property rights, venture entrepreneurship, and languages in order to cultivate a wide range of qualities and social and international skills that are essential for the next generation of science and technology leaders. English classes will be organized into different levels and help students gain the communication skills necessary to be successful in international society through lectures on communication, presentation, discussion, and writing.

◇Science and Technology Subjects

Subjects are offered in four subcategories to help students from different academic backgrounds to understand and discuss the latest science and technology and social needs in various fields. These subjects are designed to cultivate individuals with broad perspectives, flexible inspiration, and creativity to have a comprehensive view of other science and technology fields.

① Introduction Subjects

Students develop a cohesive view by learning about each research field under the seven Education Programs from a comprehensive perspective, including how the most world-wide scientific advancements have developed and merged with each other and what types of new science and technology and research fields will be created in the future.

② Basic Subjects

These Basic Subjects cater to students from a wide range of fields, allow them to tackle different fields or interdisciplinary fields in addition to their specialized fields, and help them to obtain the foundational knowledge required to take individual Education Programs. Basic Subjects are designed to supplement each student's ability from any education program according to their academic history.

③ Specialized Subjects

This is a core lecture in the program in which students gain advanced specialized knowledge along with the human resource development goal of each program. These selective subjects present challenges for the Project Based Learning subjects for each student and provide opportunities within their career paths at the end of the program. Students will engage in exercises to work on the themes presented by students from other labs and to perform research in advanced fields with advanced technologies and methodology. They will also engage in Project Practice to learn the spirit of "mono-tsukuri" manufacturing through participating in internships offered by companies with specific themes.

④ PBL Subjects

As the culmination of "Science and Technology Subjects," students explore issues in science and technology in collaboration with students from other fields or labs and develop the ability to resolve them in a PBL (Project Based Learning) format. PBL subjects are required subjects and they will not only provide students with broader perspectives in their fields of specialization but also nurture their interdisciplinary communication capability and the aspirational spirit that will be critical when researchers and engineers from different specializations pioneer interdisciplinary fields together.

Among the “Basic Subjects” and “Specialized Subjects,” Core Subjects are designated either as required or a selection is required for each of the Education Programs as they are necessary to obtain specialized knowledge that are key to each course. (See “4-4 Completion Requirements” in “Chapter 4. Registration Procedure” in this document for details on the Core Subjects.

◇Research-based Subjects

The following subjects are offered as they are directly related to students’ master’s theses in order to develop their ability to apply their specialized knowledge to address specific issues in science and technology based on the wide-ranging foundational concepts they have learned.

- Seminar I, II

  During the seminar, students collaborate to examine their research work through presentations and discussions on the achievements in their master’s theses research or survey for their academic paper. The seminar also builds students’ aptitude for presentations and discussions.

- Colloquium A, B

  Visiting instructors examine the most advanced science and technology fields that continue to evolve and students discuss the topic to reinforce the development of their research work.

- Research Experiments I, II

  This subject is designed to teach the principles and methodology of science and technology while fostering the ability for developing research plans.

- Research Thesis

  As the culmination of the Master’s Course, this subject develops aptitude for extracting new, effective, and practical conclusions from the data obtained from research experiments, developing new challenges based on the conclusions extracted, and logically stating research backgrounds, processes, and conclusions for scientific papers and reports.

◇Other Education

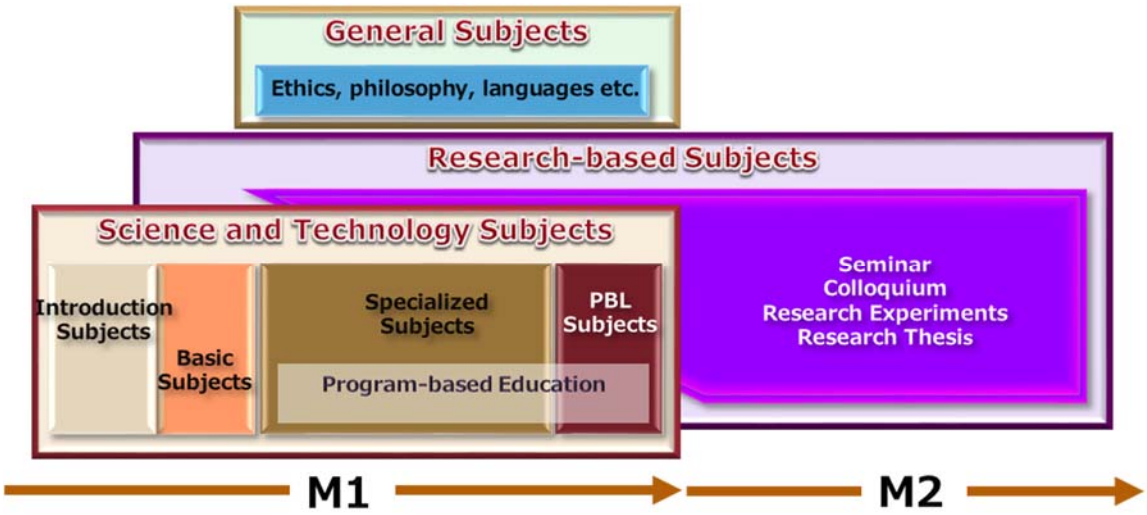
① Education related to performing research

In order to pursue research work safely and legally, lectures and lab work are offered right after students are admitted or allocated to labs. The courses include a Research Ethics Workshop, a Genetic Modification Experiment Workshop, an RI/X-Ray Safety Workshop and Practical Training, an Animal Experiment Workshop, Information Network Guidance, Information Security Workshop/Training, and a Chemical Handling Workshop and Practical Training. A Mental/Physical Health Workshop is also available for learning mental and physical health management.

② Career Education

Career Education reinforces students’ abilities for developing and actualizing their career vision in response to social needs. It is provided in cooperation with private businesses and public research institutions to prepare students for their future achievements in various fields in society. This includes a training workshop for discussing Master’s degree holders’ careers in society, a job seminar for discussing job matching, and lectures for learning from the experiences of company leaders, innovative engineers, graduates of NAIST, or venture entrepreneurs for better career paths.

［Outline of Curriculum for Master's Courses］



2－4．Curriculum for Doctoral Courses

The Doctoral Courses offer the following groups of subjects:

◇Courses for Research Skills

The following subjects are offered to develop students' international mindsets and international communication skills

- Advanced English A-E

  Advanced international communication is taught in NAIST lectures to teach how to write science and technology papers in English and the methodology of advanced international communication with researchers overseas.
- Overseas English Training I-III

  Students learn English overseas.
- International Training I-III

  Presentations and discussions on research results are held at international conferences or overseas labs.
- Study Abroad I-III

  Students go abroad to participate in research internships at companies overseas or engage in research at universities overseas.

The following subjects are offered to develop students' aspirational spirit and ability for planning projects, discovering issues, combining knowledge and research methodologies, and driving research forward:

- Seminar for International Workshop Planning

  Students experience all aspects of international workshops, including proposals, organization, operation, and management.
- Project Management I-III

  Students learn on and off campus how to present research topics and research fund management, how to operate and promote research projects, and how to solve problems by combining various knowledge and techniques.

Special Lectures are offered to gain advanced specialized knowledge on the following subjects:

・ Information Science and Engineering, Computational Biology, Biological Science, Bionanotechnology, Materials Science and Engineering, Intelligent Cyber-Physical Systems, and Data Science

Students learn in intensive lectures about the latest high-quality research in the fields that correspond to the seven Education Programs in the Master's Courses.

The following subjects are offered to develop students' aspirational spirit and capability for managing research, improving social coordination and comprehensive perspective, and building career paths.

・ Innovation Management A, B

Students obtain knowledge on intellectual property necessary for developing innovation internationally, science and technology ethics, and cross-cultural understanding.

・ Career Management A, B

Students receive instructions on teaching methods, developing their educational ability, fostering transferrable skills, and obtaining knowledge for starting businesses in order to develop the capability that is necessary for diverse career paths including academia and non-academia.

All students are encouraged to take "Study Abroad" so they can cultivate an international mindset and international communication skills. By providing opportunities for education and research on and off campus and outside Japan, students will be trained in various research environments.

◇Courses for Independent Research Abilities

・ Research Status Hearing

Students report on and discuss the progress of their research on specific assignments. This seminar is held for each of the seven Education Programs to give students instructions from broader perspectives and develop their capability for discussion and presentation.

・ Doctoral Research I-VI

Students develop their capability for performing research activities independently, setting topics, and being creative through their research work as these skills are necessary for doctoral dissertations.

◇Other Education

Education related to performing research is provided as in the Master's Courses.

［Outline of Curriculum for Doctoral Courses］

3 Introduction for Incoming Students

3 Introduction for Incoming Students

3－1. Selecting Labs and Education Programs [Master's Courses]

2019

April 2 (Tue): Orientation for Incoming Students

Please make sure you understand the curriculum, research activities, scholarship programs, and campus living in order to begin your life at NAIST smoothly.

April 3 (Wed): TOEIC-IP Test

All incoming students should take this test. Please take this opportunity to evaluate your English ability at the time of admission and to establish clear goals for your English studies. Your test results will be taken into account for assignment to labs in the materials science fields.

April 5 (Fri) to April 18 (Thu): Registration (Introduction Subjects, Mathematical Analyses for Materials Science)

Students are encouraged to register for and take all of the Introduction Subjects (seven subjects held from April 9 (Thu) to May 8 (Wed)). Students must register for at least three subjects (three credits) which are required in order to complete the master's course.

April 3 (Wed) to April 5 (Fri): Lab introductions

Labs from each field will be introduced over the course of three days. Please listen carefully to the work of each lab that you are interested in and think about which lab to choose.

April 3 (Wed) to April 22 (Mon): Lab visits

Students can visit labs by participating in their briefings, attending their office hours, or making appointments with them by email. This is an opportunity to directly visit the labs you find interesting during the introduction in order to ask professors and other lab supervisors for more detailed information about the lab or to discuss students' research goals, as well as to exchange information with senior students at the lab.

April 9 (Tue) to May 8 (Tue): Attend the Introduction Subjects

Please take the seven Introduction Subjects (1 credit each x 7 subjects = 7 credits) to attain a deeper understanding of the world trends and the directions of science and technology to determine which the Education Programs you wish to choose. At least three credits from these subjects are required in order to complete the master's course.

April 10 (Wed) 15:10-16:40: Basic Academic Achievement Test

Students who took the entrance examination for the biological sciences classification need to take this test. The results will be taken into account for lab assignments in the Biological Science field.

April 12 (Fri) Submission by 15:30: First Laboratory Assignment Request Survey
Please register 3 labs that you wish to be assigned to at this time based on lab introductions. Please also state whether you wish to participate in the 5-year Integrated Course (continue to the doctoral course) at this time.

April 12 (Fri) Submission by 15:30: Change of Field Screening Application.
If you wish to be assigned to a lab in a field other than the one you selected at the time of the entrance exam, please attach the "Proof of Advance Interview" that was issued to you after having an interview with the professor or associate professor of the lab you wish to join.

April 15 (Mon) Afternoon: First Laboratory Assignment Request Survey results
The number of students who selected labs as their first, second, and third choices will be announced for each lab on the web. Please use this information to complete your preferences for the second Laboratory Assignment Request Survey.

April 15 (Mon) Afternoon: Change of Field Screening dates
Applicants for the Change of Field Screening will be notified individually by email.

April 16 (Tue) Submission by 13:30: 5-year Integrated Course Application
Students who wish to participate in the 5-year Integrated Course must submit the application. (See "4-5 5-year Integrated Course" in "Chapter 4. Registration Procedure" of this handbook for details.)

April 16 (Tue) 15:10- (4th period and later): Change of Field Screening

April 17 (Wed) Afternoon: Change of Field Screening results
Applicants will be notified individually by email.

April 18 (Thu) Submission by 15:30: Second Laboratory Assignment Request Survey
Please register 3 labs that you wish to be assigned to at this time based on lab visits. Please also state whether you wish to participate in the 5-year Integrated Course (continue to the doctoral course) at this time.

April 19 (Fri) Afternoon: Second Laboratory Assignment Request Survey results
The total number of students applying to each lab and each lab's capacity will be announced on the web. Please use this information to complete your preferences for the final Laboratory Assignment Request Survey.

April 19 (Fri) Afternoon: 5-year Integrated Course Application results

Applicants will be notified individually by email.

April 23 (Tue) Submission by 15:30: Final Laboratory Assignment Request Survey
Please register 5 labs that you wish to be assigned to, based on lab visits and the Change of Field Screening results.

April 24 (Wed) or later: Laboratory Assignment results
Lab assignments will be posted on the web as soon as they are decided. Students will receive the results by email as well.

April 24 (Wed) until completed: Education Program selection
Students should consult with their instructors as their lab assignments are finalized and decide their Education Program.

April 22 (Mon) to May 15 (Wed): Registration (Basic Subjects)
Please register for Basic Subjects based on your Education Program.

May 29 (Wed) to June 11 (Mon): Registration (General Subjects, Specialized Subjects, PBL Subjects)
Please register for General, Specialized and PBL Subjects based on your Education Program.

*The above schedule may change depending on overall progress and departmental coordination.

[Other workshops, etc.]
April 8 (Mon)
– 1st and 2nd periods: Information Network Guidance, Safety Education (for all incoming students)
– 3rd and 4th periods: First RI/X-Ray Workshop (for all those who may engage in experiments using RI/X-ray)
April 9 (Tue)
– 5th period: Research Ethics Training Session (for all incoming students)
April 16 (Tue)
– 4th and 5th periods: Genetic Modification Experiment Workshop (for all those who may engage in genetic modification experiments)
May 22 (Wed)
– 4th period: English Language Subject Guidance (for all those who may take English language subjects)

*Other procedures for applying for scholarship programs or tuition fee exemption will be explained at the orientation sessions for incoming students so please make sure to attend them.

３－２．Selecting Labs and Education Programs [Doctoral Courses]

2019

April 3 (Wed): TOEIC-IP Test

All incoming students should take this test. Please take this opportunity to evaluate your English ability at the time of admission and to establish clear goals for your English studies.

April 5 (Fri): Orientation for Incoming Students

Please make sure you understand the curriculum, research activities, scholarship programs, and campus living in order to begin your life at NAIST smoothly.

Until completed: Education Program selection

S Students should consult with their instructors as their lab assignments are finalized and decide their Education Program.

*The above schedule may change depending on overall progress and departmental coordination.

[Other workshops, etc.]

April 8 (Mon)

– 1st and 2nd periods: Information Network Guidance, Safety Education (for all incoming students)

– 3rd and 4th periods: First RI/X-Ray Workshop (for all those who may engage in experiments using RI/X-ray)

April 9 (Tue)

– 5th period: Research Ethics Training Session (for all incoming students)

April 16 (Tue)

– 4th and 5th periods: Genetic Modification Experiment Workshop (for all those who may engage in genetic modification experiments)

May 22 (Wed)

– 4th period: English Language Subject Guidance (for all those who may take English language subjects)

*Other procedures for applying for scholarship programs or tuition fee exemption will be explained at the orientation sessions for incoming students so please make sure to attend them.

4 Registration Procedures

4 Registration Procedures

Students should thoroughly consult with their supervisor(s) about subject registration to develop plans for taking for subjects each quarter.

Subject registration is only required for the master's course. In principle, subject registration is necessary for those subjects belonging to the areas outside of their research activity subjects. master's course must include subjects outside the group of subjects related to the student's main research activities. However, intensive lectures, collaborative education programs with other graduate schools, etc., and subjects for certificate programs are not subject to this restriction.

4－1. Subject Registration

Subject registration can only be performed during the designated periods below using the online subject registration system. During this period, it is also possible to perform registration changes and cancellations in addition to registration for new subjects.

［2019 Subject Registration Periods］

Quarters (Academic Terms)	Period	Subjects
1st Quarter (April 9 to June 4)	April 5 (Fri) to 18 (Thu)	Introduction Subjects (Spring), Mathematical Analyses for Materials Science
	April 22 (Mon) to May 15 (Wed)	Basic Subjects
2nd Quarter (June 5 to September 30)	May 29 (Wed) to June 18 (Tue)	General Subjects, Specialized Subjects, PBL Subjects
	August 26 (Mon) to September 6 (Fri)	General Subjects, Specialized Subjects (Both starting in September)
3rd Quarter (October 4 to December 6)	September 27 (Fri) to October 24 (Thu)	General Subjects, Specialized Subjects, Introduction Subjects (Fall), Basic Subjects (Fall), PBL Subjects (For Fall incoming students)
4th Quarter (December 9 to March 3)	December 2 (Mon) to December 20 (Fri)	General Subjects, Specialized Subjects

In addition to the subject registration period, there is a registration withdrawal period established for each subject (class). If you wish to withdraw from a subject, you can do so during this period. However, please note that if it is past the subject registration period, registration and/or registration changes are not possible. .

Subject withdrawal period: Until the end of the day of the second class
＊For those subjects where two thirds or more of the lectures will be held within the registration period, registration, registration changes and withdrawals will be possible until end of the day where two thirds of the lectures are completed.

In principle, taking two subjects offered at the same time and period simultaneously is not permitted. In addition, registering for a subject at another institution may require separate registration procedures to be completed in advance.

E-mails announcing subject registration periods are sent before each period begins. Please check incoming e-mails carefully to assure you do not overlook important information sent by NAIST and do not suffer any disadvantages.

＊Subject Registration System

Check the subject registration system manual on the NAIST homepage. Familiarize yourself with how to use the system and make sure to register correctly.

＜＜NAIST TOP PAGE → For Students (Internal Only) → Academic Affairs → Subject Registration System＞＞

○Guidelines concerning Petition for Subject Registration

If the student is required to cancel or add subject registration due to unavoidable reasons such as leaves of absence, absence due to illness, etc., the student shall submit a "Petition for Subject Registration" without delay to the Academic Affairs Section, Educational Affairs Division. Please submit it as soon as deemed necessary and at least within 1 month of receiving the academic results of the subject.

The Educational Affairs Committee shall consider whether the contents and reasons of the Petition are reasonable, and if necessary, confirm the contents of the Petition with the student's main supervisor or instructor in charge of the subject. The Committee's response shall be sent to the Academic Affairs Section, Educational Affairs Division to then be reported in written form to the student and his/her supervisor.

○About credits earned prior to admission to NAIST

The NAIST Faculty Council can, if deemed educationally beneficial to do so, approve up to 10 credits for those graduate school credits earned outside of NAIST. Students who apply for this procedure are required to apply to the Educational Affairs Section, Educational Affairs Division with the following documents.

(1) Application form (available at the Educational Affairs Division.)
(2) Certificate of credits earned, or certificate of academic record, issued by the institution where the credits were earned
(3) Documents showing in detail the lecture contents of the subjects to be considered for accreditation by NAIST (a copy of the syllabus, etc.)

* The schedule for these procedures, etc. will be posted on the bulletin boards or by other means. Please check the information carefully. For more information, please contact the Educational Affairs Section, Educational Affairs Division.

○Credit transfer program with graduate schools of other universities

A credit transfer program is in place between this graduate school and the following graduate schools of other universities:

• Graduate School of Engineering, Osaka University
• Graduate School of Engineering Science, Osaka University

• Graduate School of Humanities and Sciences (Department of Information and Computer Sciences), Nara Women's University

Students who want to use the credit transfer program should read the instructions below carefully and follow the prescribed procedures. For more information, please contact the Educational Affairs Section, Educational Affairs Division.

(1) Registration method, etc.

(i) Students who want to use the credit transfer program are required to submit the prescribed registration application form and a statement of their reasons for applying.

(ii) For the master's course, the maximum number of credits registered shall be ten.

(iii) In principle, the scope of registration for subjects shall be lectures only, and shall not cover seminars, practical work, experiments, research, etc.

(iv) Students may be refused permission to take specific subjects due to reasons including lecture room capacity at the graduate school.

(2) Credit transfer

Credits earned at an institution outside of NAIST are counted as credits towards the NAIST completion requirements, provided that the NAIST Faculty Council recognizes them as such before the student take such subjects.

(3) The period for accepting the registration application form and the statement of reasons

The period for accepting these documents depends on the institution. Students will be notified via the bulletin board, etc. at a later date.

(4) Procedures for submitting a registration application form and a statement of reasons

(i) Registration application forms and the statement of reason forms are available at the Educational Affairs Section, Educational Affairs Division.

(ii) Students who want to use the credit transfer program are required to select subjects they wish to take by referring to the lecture contents, class schedule, etc. of the institution; obtain approval from their supervising instructor(s) (a seal of approval is required); and submit the registration application form and a statement of reasons to the Educational Affairs Section, Educational Affairs Division.

○Research guidance offered at institutions outside of NAIST

Students can receive necessary research guidance at non-NAIST graduate schools and research institutions, etc. (hereinafter referred to as "non-NAIST graduate schools, etc.") based on consultation with relevant non-NAIST graduate schools, etc. when it is deemed educationally beneficial to do so. The duration for which such research guidance is available is up to one year in total for the master's course and doctoral course, respectively. Permission may be given to extend the duration for the doctoral course. Students who want to receive research guidance at non-NAIST graduate schools, etc. are required to consult with their research instructors in advance, and inform the Academic Affairs Section of the Educational Affairs Division at least two months before the month in which such students will start to receive guidance.

○Handling of classes when public transport services are suspended, etc.

・Handling of classes when public transport services are suspended

Classes will be cancelled when the services of the Kintetsu lines (Keihanna, Nara, and Kyoto) and/or Nara Kotsu Bus lines (routes serving Gakken Kita-Ikoma Sta., Gakuenmae Sta., and Takanohara Sta.) (which are used by students to commute to the NAIST campus) are suspended due to a major disaster, accident, etc. The table below shows the handling of classes when public

transport services are restored.

・Handling of classes when a weather warning is issued

Classes will be cancelled when an Emergency Warning and a storm (or snowstorm) warning is announced in Ikoma City, Nara City and the area including those cities. The table below shows the handling of classes when the warning is cancelled.

Status at 7:00 a.m./10:00 a.m.	Handling of classes
Public transport services are restored/the warning is cancelled at or before 7:00 a.m.	Classes are held for the whole day
Public transport services are restored/the warning is cancelled at or before 10:00 a.m.	Classes are held in the afternoon
Public transport services remain suspended/the warning remains in effect after 10:00 a.m.	Classes are cancelled for the whole day

Note: Information on the TV, Internet, etc. is used to check if public transport services are suspended/restored or a warning is issued/cancelled.

What is an Emergency Warning?
The issuance of an Emergency Warning for an area indicates a level of exceptional risk of a magnitude observed only once every few decades. Residents should pay attention to their surroundings and relevant information such as municipal evacuation advisories and orders, and should take all steps necessary to protect life.

If serious difficulty in travelling to NAIST is anticipated due to scheduled transportation cancellation, etc, NAIST may decide to cancel classes.

In case of a class cancellation, a supplementary lecture is generally given to students by the lecturer in charge. However, at the lecturer's discretion, an appropriate study assignment may be given to replace the lecture.

○Mandatory Exclusion from Class Attendance due to Infectious Diseases

Students suffering from a contagious illness (such as influenza) diagnosed by a medical doctor must observe the mandatory exclusion from class attendance as outlined by Article 19 of the School Health and Safety Act. If diagnosed with an infectious disease, mandatory class exclusion is immediately in effect and students are required to inform the head of their laboratory of the necessary information (name, student ID number, e-mail address, etc.).

[For reference：Period of class exclusion（Only common disease examples）]

Name of diseases	Period of suspended ※
Influenza	5 days from the start of symptoms and 2 days from the decline of the fever
Whooping cough	Until the whooping cough has stopped or after finishing a 5 day antibacterial agent treatment
Measles	3 days from the decline of fever
Mumps	Until complete recover and 5 days after swelling of the Parotid gland、Glandula submandibularis and/or Glandula sublimgualis.has subsided
Rubella	Until the rash has completely disappeared

※These periods are standards established by the School Health and Safety Act. You should consult doctors on a case-by-case basis.

In case of a mandatory exclusion from class attendance, the lecturer in charge will generally provide a study assignment equivalent to the content of the missed classes.

In addition, if the University closes to prevent the spread of a contagious illness, the lecturer in charge will generally provide supplementary lectures. However these may be replaced by an appropriate study assignment at the lecturer's discretion.

○Excused absence

If you cannot attend a class due to one of the following reasons, the lecturer in charge for the class may treat this absence as an excused absence at his/her discretion.

1) Attending an event due the death of a family member closer than or of a second-degree relationship.
2) Appearing at a court or other public office due to jury duty, as an eyewitness or a reference witness, etc.
3) Attending a bone marrow examination necessary for a bone marrow transplant.

For students who wish to have their absence treated as an excused absence, they must consult with the lecturer in charge.

When an excused absence is granted, the lecturer will provide a study assignment.

○Treatment of other absences

If students cannot attend a class due to a reason which does not constitute an excused absence, they shall consult with the lecturer in charge to explain the reason for the absence.

If the lecturer decides to take special considerations for an absence that may affect grading, the lecturer may give the student an appropriate study assignment that is equivalent to the missed lectures.

○Absence limitations for excused absence and special considerations

The number of class absences that may be treated as excused absences or for special considerations shall not be more than one third of the number of classes for the specific subject.

４－２．Registration Regulations

Registration Regulations for the Graduate School of Science and Technology at the Nara Institute of Science and Technology

March 26, 2018
Regulation No. 1

Article 1 (Purpose)
These regulations stipulate matters necessary for registration by students of the Graduate School of Science and Technology in accordance with Article 34 of the Regulations of Nara Institute of Science and Technology (2004 Regulations No. 1) (“NAIST Regulations”).

Article 2 (Research instructors)
1. Two or more research instructors of different courses, etc. shall be designated for each student to provide guidance on choosing subjects and preparing a degree thesis, etc. (hereinafter referred to as “research guidance”).
2. One of such research instructors shall be designated as the main research instructor.
3. Research instructors may be changed if needed in the course of studying or research guidance.

Article 3 (Research guidance)
The details of research guidance shall be defined for respective students.

Article 4 (Subject categories)
1. Subject categories and the number of credits required for completion for the master’s course shall be as shown in Appendix chart 1.
2. Subject categories and the number of credits required for completion for the doctoral course shall be as shown in Appendix chart 2.
3. The subjects, number of credits, and registration methods for the master’s course and doctoral course shall be stipulated separately.

Article 5 (Registration procedures)
1. Students must, under guidance offered by the main research instructor, choose the subjects they will take.
2. In principle, taking multiple subjects held at the same time is not permitted.

Article 6 (Awarding of credits)
1. Credits shall be awarded by means of an examination or a research report. Credits may be awarded based on an evaluation of day-to-day study activities, instead of such examination.
2. Academic performance based on an examination or a research report shall be evaluated by points (full score: 100 points); 60 points or more is deemed as a “pass”, and less than 60 points is deemed as a “fail”. For evaluation purposes, academic performance may be represented with the evaluation grade prescribed in accordance with the categories below.

(1) 90 points or more	Excellent
(2) 80 points or more	Very good
(3) 70 points or more	Good
(4) 60 Points or more	Fair
(5) less than 60 points	Fail

3. In the event that it is difficult to evaluate academic performance based on points as described in the preceding paragraph, “pass” or “fail” may be used instead of such points.
4. Prescribed credits shall be awarded to students whose academic performance is “pass” in accordance with the two preceding paragraphs.
5. Subjects whose credits have been earned cannot be taken again.

Article 7 (Approval of research guidance)
Research guidance shall be approved by the main research instructor and reported to the dean of the graduate school.

Article 8 (Theme of the degree thesis)
Students shall be required to report the theme of their degree thesis by the specified date, with the approval of the main research instructor.

Article 9 (Submission of the degree thesis)
1. Students are required to submit a degree thesis by the specified date, with the approval of the main research instructor.
2. A degree thesis can be submitted by students who (i) have earned or who are expected to earn credits necessary for completion of the course and (ii) have completed the necessary research guidance offered by research instructors.

Article 10 (Disqualification of credits for students who have been expelled due to unpaid tuition)
Credits accrued during the period of unpaid tuition will be disqualified when the student has been expelled from school, pursuant to Article 53-2 (4) of Regulation.

Article 11 (Index indicating the academic performance)
An objective index indicating the academic performance related a certain period or cumulative period can be calculated and evaluated, based on the evaluation performed pursuant to Article 6-2.

Article 12 (Miscellaneous provision)
Other matters relating to registration by students shall be stipulated separately.

Supplementary provisions
(Effective date)
1. These Regulations shall come into effect on April 1, 2018.
(Abolition)
2. The Registration Regulations for the Graduate School of Information Science at the Nara Institute of Science and Technology, The Registration Regulations for the Graduate School of Biological Sciences at the Nara Institute of Science and Technology and The Registration Regulations for the Graduate School of Materials Science at the Nara Institute of Science and Technology (hereinafter referred to as “the former Registration Regulations”) are abolished.
(Transitional measures)
3. For students who were admitted in the 2017 academic year or earlier (hereinafter referred to as “enrolled students”) to take subjects, the previous Registration Regulations shall remain in effect even after these Regulations come into effect. In the event that enrolled students take subjects within the scope of these Regulations, such subjects shall be deemed to be replaced with former subjects as set forth separately.

Appendix chart 1 (supplement to Article 4, Paragraph 1)

Subject and Category		Number of credits required for completion
Subject type	Category	
General Subjects	—	4
Science and Technology Subjects	Introduction Subjects	3
	Basic Subjects	12
	Specialized Subjects	
	PBL Subjects	2
Research-based Subjects	—	9
Total		30

Appendix chart 2 (supplement to Article 4, Paragraph 2)

Subject and Category	Number of credits required for completion
Subjects for research skills	3
Subjects for independent research abilities	7
Total	10

Registration Policies for the Graduate School of Science and Technology at the Nara Institute of Science and Technology

March 27, 2018
Policy No. 1

Article 1 (Purpose)
These Policies stipulate matters necessary for the subjects, number of credits, and registration methods in accordance with Article 34 of the Registration Regulations for the Graduate School of Science and Technology at the Nara Institute of Science and Technology (2018 Regulations No. 1) (“Registration Regulations”).

Article 2 (Subjects)
1. The subjects, number of credits, and registration methods for the Master’s Course shall be as shown in Appendix chart 1.
2. The subjects, number of credits, and registration methods for the Doctoral Course shall be as shown in Appendix chart 2.

Supplementary provision
These Policies shall come into effect on April 1, 2018.
Supplementary provision
These Policies shall come into effect on June 14, 2018, and be applicable from April 1, 2018.
Supplementary provisions
(Effective date)
1. These Policies shall come into effect on April 1, 2019.
(Transitional measures)
2. For students who were admitted in academic year 2018 or earlier (hereinafter referred to as “enrolled students”), the former Registration Policies for the Graduate School of Science and Technology at the Nara Institute of Science and Technology shall supersede these Regulations after revision. In the event that enrolled students take subjects within the scope of these Regulations, such subjects shall be deemed to be replaced with former subjects as set forth separately.

Number of credits required for completion					30								

In the "Required/elective" column, ◎, □, ○, and △ represent required subjects, required elective subjects, and elective subjects, respectively. Subjects marked △ do not count as credits toward the completion requirements. C mark represent the core subjects for each educational program.

(2) Registration requirements

A. The total of 30 credits or more must be completed, including at least four credits from General Subjects, at least three credits from Introduction Subjects, at least 12 credits among Basic Subjects and Specialized Subjects, and at least two credits from PBL Subjects, and at least nine credits from Research-based Subjects.

B. Among Basic Subjects, if a subject is considered as previously completed due to the faculty/department of a student's undergraduate study, that subject may not count toward the student's necessary credit.

C. At least 12 credits among Basic Subjects and Specialized Subjects mentioned in A above must include the completion of Core Subjects defined as course completion requirements for each educational program as outlined below.

・For the Program of Information Science and Engineering, at least two subjects among the following Core Subjects must be completed: "Formal Language Theory", "Programming Course", "High Performance Computing Platforms", "Software Design", and "Artificial Intelligence".

・For the Program of Computational Biology, at least three subjects among the following Core Subjects must be completed; "Systems Biology", "Medical Imaging Analysis", "Biomedical Media Informatics", "one subject from 'Applied Life Sciences・Microbial Science, Applied Life Sciences・Plant Science, Applied Life Sciences・Biomedical Science and Applied Life Science'" and "Development of Bioscience into Industry Ⅰ".

・For the Program of Biological Science, at least four subjects among the following Core Subjects must be completed; "Cell Membranes and Transport", "Cell Signaling", "one subject from 'Microbial Science, Plant Science, and Biomedical Science'", "Cytoskeleton and Cell Cycle", "Genetics and Stem Cell Biology", "Gene Cloning and DNA Analysis" and "Advanced Techniques in Bioscience".

・For the Program of Bionanotechnology, at least three subjects among the following Core Subjects must be completed; "Core Molecular Science Ⅱ", "Biomaterials Chemistry", "one subject from 'Applied Life Sciences・Microbial Science, Applied Life Sciences・Plant Science, Applied Life Sciences・ Biomedical Science, and Applied Life Science'", "Development of Bioscience into Industry Ⅰ" and "Biomolecular Science".

・For the Program of Materials Science and Engineering, choose a set of Core Subjects between "combination of 'Core Solid State Physics I and Core Solid State Physics Ⅱ'" or "combination of 'Core Molecular Science Ⅰ and Core Molecular Science Ⅱ'". In addition, at least two Core Subjects must be completed among "Biomaterials Chemistry", "Semiconductor Materials", "Optoelectronics" and "Organic Synthesis and Polymer Science".

・For the Program of Intelligent Cyber-Physical Systems, at least three Core Subjects in (i) and (ii) must be completed. In principle, this should include at least one subject from each of (i) and (ii).
(ⅰ) "Optics", "High Performance Computing Platforms", "Ubiquitous Systems", "Computer Network", "Virtual Reality", "Wireless Communication Systems", "Human Computer Interaction", "Machine Learning and Intelligent Control", "Mathematical Modeling", "Robotics", and "Hardware Security".
(ⅱ) "Quantum Mechanics", "Core Physical Chemistry Ⅰ", "Semiconductor Materials", and "Materials Informatics".

・For the Program of Data Science, satisfy the requirements in (i) to (v) to complete the Core Subjects.
(ⅰ) Complete at least four Core Subjects among "Data Engineering", "Machine Learning", "Pattern Recognition", "Mathematical Modeling", "Systems Biology", "Data Mining", "Medical Imaging Analysis", "Data Science Ⅰ", "Data Science Ⅱ", "Sequential Data Modeling", "Advanced Techniques in Bioscience", "Big data in Bioscience", "Light and Information Devices Special", and "Materials Informatics".
(ⅱ) "Data Science Ⅱ" in (i) must be completed.
(ⅲ) Either "Big data in Bioscience" or " Materials Informatics" listed in (i) must be completed.
(ⅳ) Students who have not completed the Information Science Educational Curriculum must complete "Data Science Ⅰ" in (i).
(ⅴ) Students who have completed the Information Science Educational Curriculum must complete subjects other than "Data Science Ⅰ", which are listed in (i).

(3) Numbering Information

Subject numbers consist of 4-digit numbers based on levels of courses.

First digit : The first digit in the 6-digit numbers indicates levels of subjects:
1XXX = General Subjects (For master's course)
2XXX = Introduction Subjects (For master's course)
3XXX = Basic Subjects (For master's course)
4XXX = Specialized Subjects (For master's course)
5XXX = PBL Subjects (For master's course)
6XXX = Research-based Subjects (For master's course)
7XXX = Courses for research skills (For doctoral course)
8XXX = Courses for independent research abilities (For doctoral course)

From second to fourth digits : The from second to fourth digits in the 6-digit numbers indicate serial
XXXX = Serial numbers (ranging from 01 to 99)

Appendix chart 2 (supplement to Article 2, Paragraph 2)

Curriculum chart of the Graduate School of Science and Technology (Doctoral Course)

(1)Subject name, etc.

Category	Subject name	Subject Number	Number of credits	Number of credits required for completion	Required/ elective	Remarks
Subjects for research skills	Advanced English A	7001	1		○	English lectures at NAIST
	Advanced English B	7002	1		○	If you have already taken the master's course subject "Academic Discussion" you may not take "Advanced English A". If you have already taken the master's course subject "Research Presentation" you may not take "Advanced English B". If you have already taken the master's course subject "Research Writing" you may not take "Advanced English C". If you have already taken the master's course subject "Advanced Research Writing" you may not take "Advanced English D".
	Advanced English C	7003	1		○	
	Advanced English D	7004	1		○	
	Advanced English E	7029	1		○	
	Overseas English Training Ⅰ	7005	2		○	English training overseas (About 3 weeks or more)
	Overseas English Training Ⅱ	7006	2		○	
	Overseas English Training Ⅲ	7007	2		○	
	International Training Ⅰ	7008	1		○	Presentations at a international conference
	International Training Ⅱ	7009	1		○	
	International Training Ⅲ	7010	1		○	
	Study Abroad Ⅰ	7011	2		○	Students are strongly recommended to take "Study Abroad Ⅰ".
	Study Abroad Ⅱ	7012	2		○	・Internship at an overseas corporation to perform research (About 3 weeks or more) ・Research activities at a overseas partner laboratory or research institution (About 3 weeks or more) ・Overseas research
	Study Abroad Ⅲ	7013	2	3	○	
	Seminar for International Workshop Planning	7014	1		○	Plan an international student workshop, etc.
	Project Management Ⅰ	7015	1		○	Management of research project, etc
	Project Management Ⅱ	7016	1		○	
	Project Management Ⅲ	7017	1		○	
	Special Lectures in Information Science and Engineering	7018	1		○	Special lectures corresponding to seven educational programs in the Master's course
	Special Lectures in Computational Biology	7019	1		○	
	Special Lectures in Biological Science	7020	1		○	
	Special Lectures in Bionanotechnology	7021	1		○	
	Special Lectures in Materials Science and Engineering	7022	1		○	
	Special Lectures in Intelligent Cyber-Physical Systems	7023	1		○	
	Special Lectures in Data Science	7024	1		○	
	Innovation Management A	7025	1		○	Students are strongly recommended to take "Innovation Management A". If you have already taken the master's course subject "Exercise for Intellectual Property Rights" you may not take "Innovation Management A".
	Innovation Management B	7026	1		○	
	Career Management A	7027	1		△	
	Career Management B	7028	1		△	
Subjects for independent research abilities	Research Status Hearing	8001	1	7	◎	Research status hearing(A mid-term report)
	Doctoral Research Ⅰ	8002	3		○	(The first half-year)
	Doctoral Research Ⅱ	8003	3		○	(The second half-year)
	Doctoral Research Ⅲ	8004	3		○	(The third half-year)
	Doctoral Research Ⅳ	8005	3		○	(The fourth half-year)
	Doctoral Research Ⅴ	8006	3		○	(The fifth half-year)
	Doctoral Research Ⅵ	8007	3		○	(The sixth half-year)
Number of credits required for completion				10		

In the "Required/elective" column, ◎, □, ○, and △ represent required subjects, required elective subjects, and elective subjects, respectively. Subjects marked △ do not count as credits toward the completion requirements.

* This curriculum is also used for double degree program students.

(2)Registration requirements

Students are required to earn 10 credits or more in total. The total credits must include at least 3 credits from “Courses for research skills” and at least 7 credits from “Courses for independent research abilities” (including earning 1 credit of "Research Status Hearing").

(3)Numbering Information

Subject numbers consist of 4-digit numbers based on levels of courses.

First digit : The first digit in the 4-digit numbers indicates levels of subjects:
1XXX = General Subjects (For master's course)
2XXX = Introduction Subjects (For master's course)
3XXX = Basic Subjects (For master's course)
4XXX = Specialized Subjects (For master's course)
5XXX = PBL Subjects (For master's course)
6XXX = Research-based Subjects (For master's course)
7XXX = Courses for research skills (For doctoral course)
8XXX = Courses for independent research abilities (For doctoral course)

From second to fourth digits : The from second to fourth digits in the 4-digit numbers indicate serial
XXXX= Serial numbers (ranging from 01 to 99) "

４－３．Research Ethics Training Session

NAIST offers Research Ethics Training Sessions every year to foster the ethical thinking necessary for researchers and technicians. These sessions are offered in both Japanese and English.

Session times: April 9 (Tue), 2019 16:50- 18:20 (For Spring students)

October 3 (Thu), 2019 16:50- 18:20 (For Fall students)

Attendance is mandatory for all new students. Please understand that if you do not successfully complete this session, you may experience some disadvantages during your studies.

４－４．Completion Requirements

The following conditions must be satisfied to complete the program. You are responsible for confirming whether or not the completion requirements have been satisfied by consulting with your advisor.

＜Master's course＞

You must be registered in the master's course for at least two years, and complete at least 30 credits (including taking "Research Ethics Training Session" and passing the test). These credits must include at least 4 credits from "General Subjects," at least 3 credits from introductory subjects in "Science and Technology Subjects," at least 12 credits from the basic and specialized subjects required for each educational program (※), at least 2 credits from PBL subjects offered by each educational program, and at least 9 credits from "Research-based Subjects". In addition, you must receive necessary research guidance, your master's thesis must be accepted, and you must pass the final exam.

The subjects indicated by (※) are required or elective subjects which are core subjects to gain specialized knowledge required by each educational program.

A student can also study specialized subjects required by educational programs other than the program the student chose.

[The core subjects for each educational program]

【Program of Information Science and Engineering】 You must study at least two subjects among the following Core Subjects must be completed: "Formal Language Theory", "Programming Course", "High Performance Computing Platforms", "Software Design", and "Artificial Intelligence".
【Program of Computational Biology】 You must study at least three subjects among the following Core Subjects must be completed; "Systems Biology", "Medical Imaging Analysis", "Biomedical Media Informatics", "one subject from 'Applied Life Sciences・Microbial Science, Applied Life Sciences・Plant Science, Applied Life Sciences・Biomedical Science and Applied Life Science'" and "Development of Bioscience into Industry Ⅰ".
【Program of Biological Science】 You must study at least four subjects among the following Core Subjects must be completed; "Cell Membranes and Transport", "Cell Signaling", "one subject from 'Microbial Science, Plant Science, and Biomedical Science'", "Cytoskeleton and Cell Cycle", "Genetics and Stem Cell Biology", "Gene Cloning and DNA Analysis" and "Advanced Techniques in Bioscience".

【Program of Bionanotechnology】

You must study at least three subjects among the following Core Subjects must be completed; “Core Molecular Science Ⅱ”, “Biomaterials Chemistry”, “one subject from ‘Applied Life Sciences･Microbial Science, Applied Life Sciences･Plant Science, Applied Life Sciences･ Biomedical Science, and Applied Life Science’”, “Development of Bioscience into Industry Ⅰ” and “Biomolecular Science”.

【Program of Materials Science and Engineering】

For the Program of Materials Science and Engineering, choose a set of Core Subjects between “combination of ‘Core Solid State Physics I and Core Solid State Physics Ⅱ’” or “combination of ‘Core Molecular Science Ⅰ and Core Molecular Science Ⅱ’”. In addition, at least two Core Subjects must be completed among “Biomaterials Chemistry”, “Semiconductor Materials”, “Optoelectronics” and “Organic Synthesis and Polymer Science”.

【Program of Intelligent Cyber-Physical Systems】

You must study at least three Core Subjects in (i) and (ii) must be completed. In principle, this should include at least one subject from each of (i) and (ii).

（ⅰ）” Optics”, “High Performance Computing Platforms”, “Ubiquitous Systems”, “Computer Network”, “Virtual Reality”, “Wireless Communication Systems”, “Human Computer Interaction”, “Machine Learning and Intelligent Control”, “Mathematical Modeling”, “Robotics”, and “Hardware Security”.

（ⅱ）” Quantum Mechanics”, “Core Physical Chemistry Ⅰ”, “Semiconductor Materials”, and “Materials Informatics”.

【Program of Data Science】

For the Program of Data Science, satisfy the requirements in (i) to (v) to complete the Core Subjects.

（ⅰ）Complete at least four Core Subjects among “Data Engineering”, “Machine Learning”, “Pattern Recognition”, “Mathematical Modeling”, “Systems Biology”, “Data Mining”, “Medical Imaging Analysis”, “Data Science Ⅰ”, “Data Science Ⅱ”, “Sequential Data Modeling”, “Advanced Techniques in Bioscience”, “Big data in Bioscience”, “Light and Information Devices Special”, and “Materials Informatics”.

（ⅱ）“Data Science Ⅱ” in (i) must be completed.

（ⅲ）Either “Big data in Bioscience” or “ Materials Informatics” listed in (i) must be completed.

（ⅳ）Students who have not completed the Information Science Educational Curriculum must complete “Data Science Ⅰ” in (i).

（ⅴ）Students who have completed the Information Science Educational Curriculum must complete subjects other than “Data Science Ⅰ”, which are listed in (i).

＜Doctoral course＞

You must be registered in the doctoral course for at least three years and complete a total of ten credits (including taking "Research Ethics Training Session" and passing the test). The total credits must include at least three credits from “Subjects for research skills” and at least seven credits from “Subjects for independent research abilities.” In addition, you must receive necessary research guidance, your doctoral dissertation must be accepted, and you must pass the final exam.

４－５．5-year Integrated Course

【Summary】

Through consistent doctoral research guidance (of the 5-year Integrated Course) during the standard period of study (5 years) of the master's and doctoral courses, human resource development aimed at fostering profound knowledge in specialized fields, originality and creativity, and an understanding of issues, etc. on a global scale is achieved. Additionally, for the 5-year Integrated Course students NAIST prioritizes the expansion of the research guidance system and financial support to prepare a guidance system that allows individuals to concentrate on research as doctoral students.

【Participation in the 5-year Integrated Course approval timing and support contents】

The support contents for the 5-year Integrated Course students varies according to the timing of participation approval as shown in the table below.

Date of approval for participation in 5-year Integrated Course	Support details		
	Laboratory assignment	Sub supervisor increase	Financial support
Until the December previous to program admission	★	★	★
Until admission (March)	★	★	★
From admission until laboratory assignment	★	★	★
After laboratory assignment (After May)		★	★

Laboratory assignment: Priority for laboratory choices
Sub supervisor increase: Two or more sub supervisors
Financial support: Financial support (TA/RA salary) from the 2nd year of the master's course is possible.

【How to participate in the 5-year Integrated Course and standards for approval】

Students who wish to participate in the 5-year Integrated Course meet with the faculty of the laboratory from which they wish to enter to obtain approval ※ and then submit the "5-year Integrated Course Participation Form" to the Academic Affairs Section, Educational Affairs Division. After this, they are approved by NAIST upon the successful evaluation of students' academic achievements. Academic evaluation criteria varies depending on the time of approval as shown in the table below.

※: Faculty member interviews may result in a refusal to give approval from the faculty member of the laboratory the student wishes to enter. In Information Science Division laboratories, participation approval for the 5-year Integrated Course is after enrollment (in December or later).

Date of approval for participation in 5-year Integrated Course	Approval criteria for the 5-year Integrated Course
From admission until laboratory assignment	A score in the top 50% of enrolling students is considered as a standard
After laboratory assignment	Student whose supervisor approve participation in the 5-year Integrated Course

【Official decisions concerning 5-year Integrated Course students】

Official decisions for the 5-year Integrated Course are made after the doctoral dissertation research project proposal is completed, from December to February, in the first year of master's course and receiving evaluation from the main and sub (candidate) supervisors. In addition, even after February of the first year of master's course, when 5-year Integrated Course students are officially determined, students who wish to advance to doctoral course can apply with their supervisor's approval. In that case, students are transferred to the 5-year Integrated Course after evaluation at that time.

Please refer to the following web site for details. For more information, please contact the Educational Affairs Section of the Educational Affairs Division.

＜＜NAIST TOP PAGE → Education and Research → Academic Affairs → 5-year Integrated Course＞＞

４－６．Double Degree Program

The 21st century has seen globalization rapidly changing industry and social activities. These changes further necessitate research leaders who in addition to managing technological advances, must be able to manage human resources across countries and borders in order to solve important issues on a global scale. In order to meet these challenges and systematically develop global research leaders with international collaborative research abilities, the Double Degree Program (hereinafter referred to as "DD Program") was developed by Nara Institute of Science and Technology (hereinafter referred to as "NAIST").

The DD Program of NAIST gives a doctoral course student to register for the partner university at the same time to obtain PhD degrees from both of NAIST and the partner university through guidance of the professors of the two universities. The DD Program has been established with the following partner universities. The students participating in the program must conduct their studies at each university for at least one academic year. Number of students for acceptance (partner universities students to join NAIST doctoral program) and dispatchment (NAIST students to join partner universities doctoral program) are Limited. In principle, entrance to the program is the fall quarter of 2019 and the spring quarter of 2020.

Please refer to the following web site for details.

・Admission Information and Application Guide:
http://www.naist.jp/en/international_students/prospective_students/admission_information/double_degree.html

- ○ Ulm University (Germany)
- ○ University of Malaya (Malaysia)
- ○ Université Paul Sabatier (France)
- ○ National Chiao Tung University (Taiwan)

5 Syllabus, etc.

5 Syllabus, etc.

5－1. Online Syllabus

Check the course syllabus at:

＜＜NAIST TOP PAGE → Intranet → Academic Affairs → Syllabus＞＞

5－2. System for Electronic Education Record

Check the System for Electronic Education Record at:

＜＜NAIST TOP PAGE → Intranet → Academic Affairs → System for Electronic Education Record＞＞

＊System for Electronic Education Record

The System for Electronic Education Record is a network system that records the interim evaluation reports during the second year of the Master's Course including evaluation results (milestones) by multiple faculty members such as the main advisor and sub-advisors, areas of improvement, and feedback on the thesis (capstone). This system supports research guidance by faculty members in addition to students being able to more proactively report and communicate their research topics and plans to the advisors.

Please refer to the "System for Electronic Education Record manual" posted on the homepage shown above for how to view the System for Electronic Education Record. Familiarize yourself with how to use the system and regularly check for the latest information.

5－3. Evaluation of academic performance

○Notification of completed grade evaluation

Grades will be reported within three weeks after the completion of the course by the lecturer in charge and will be posted on the homepage and bulletin board, etc.

Students can confirm the subject registration status and academic performance by means of academic records which can be obtained from the automatic certificate issuing machine in the entrance lobby of the NAIST Library.

○Information concerning objections to academic performance evaluation

If you have objections to the grading results you received, please submit a "Letter of Objection concerning Evaluation of Academic Performance" to the Academic Affairs Section of the Educational Affairs Division within one month of receiving your grading results.

（※）Academic Performance Evaluation Objections are possible only when students' cases are deemed as pertaining to one of the following areas.

（１）Cases where it is thought there are obvious mistakes in grading, such as paperwork errors, etc.

（２）Cases where there are obvious doubts concerning academic performance evaluation in relationship to the grading standards found in the syllabus, etc.

A response to an objection is given either orally or in writing through the Academic Affairs Section of the Educational Affairs Division after review by the Graduate School's Education Committee.

The format for an objection form and the flow chart of the process of handling a claim can be found on the University's homepage.

＜＜NAIST TOP PAGE → Intranet → Academic Affairs → Released dates of Academic Performance＞＞

○The GPA [Grade Point Average] system

In order to promote the internationalization of future education and increase the transparency of the grading system, we have introduced a GPA system beginning with the students who entered in the 2018 school year. The GPA system will indicate a student's relative standing both within and beyond the University. By calculating a GPA, it can become an index for current learning and achievement; we expect this to help students grasp their academic achievement more objectively and utilize it to create their learning plans.

＜System Overview＞

The GPA system is a common method used in European and American universities to evaluate academic grades. Students receive grade evaluations after course completion and it is converted into Grade Points (GP) with the student's overall average computed as a single value.

＜Calculation Method＞

There are five levels of Grade Points (S, A, B, C, D) as shown below.

Definition and Letter Grade	GP	Evaluation Criteria	Criteria out of 100 points
Excellent（S）	4	Achieved learning outcomes with exceptionally high grade.	90 points or more
Very good（A）	3	Achieved learning outcomes with high grade.	80 points or more
Good（B）	2	Achieved learning outcomes with good grade.	70 points or more
Fair（C）	1	Achieved learning outcomes.	60 Points or more
Fail（D）	0	Did not achieve learning outcomes.	less than 60 points

（For Reference）

Definition and Letter Grade	GP	Evaluation Criteria	Criteria out of 100 points
Accredited（N）	Not Applicable	Considered as completed as studied in an academic course at this university.	Not Applicable
Pass（P）	Not Applicable	Reached the academic level for this course.	Not Applicable
Fail（F）	Not Applicable	Did not reach the academic level for this course.	Not Applicable

＜Targeted Students＞

The students who begin the Master's Course in the 2018 school year and all subsequent years.

＜Targeted Subjects＞

All subjects that count towards completion of the Master's Course in the subject categories shown below. However, if a subject cannot be evaluated by the five-level grading scheme due to the nature of the subject, it will be excluded from the GPA calculation.

◇ General Subjects

◇ Basic Subjects

◇ Specialized Subjects

＜Types of GPAs and Calculation Method＞

There is a GPA for the academic year (annual GPA) and a GPA for the entire program (cumulative GPA).

Here are the calculation methods for annual and cumulative GPAs. (Round off to two decimal digits in calculating a GPA.)

□ Calculation of an Annual GPA

Annual GPA = The sum for all subjects of (the number of credits for a registered subject for the year × GP of the subject)/The total number of credits for the year's subjects.

□ Calculation of Cumulative GPA

Cumulative GPA = The sum for all subjects of (the number of credits for a registered subject for the program × GP of the subject)/The total number of credits for the program.

＜How to Treat Retake Subjects＞

If a student retakes a subject which he/she has failed, and receives a passing grade or another failed grade as a result, the earlier result and credits are excluded from GPA. (The data before the retake will be excluded.)

＜Treatment on Academic Record＞

Both the annual GPA and the cumulative GPA will appear on the academic record.

＜Guidelines concerning the Distribution of Academic Performance Evaluations＞

1. For the grading scale consisting of S, A, B, and C, particular attention must be paid to prevent the uneven distribution of academic performance evaluations. Especially concerning S and A evaluations, together they should comprise roughly 30% of the evaluations.
2. In the event that there are 20 or less registered students for a course or that the course academic evaluations will be determined on a pass or fail grading scale, these guidelines shall not be applicable.

５－４．Toward Cultivating Globally-Aware Human Resources

The Nara Institute of Science and Technology (NAIST) was selected for the Top Global University Project by the Ministry of Education, Culture, Sports, Science and Technology in September 2014. We promote study abroad programs in cooperation with 102 academic exchange partner institutions in the world including the University of California, Davis. We also promote participation in overseas internship programs and international workshops.

The master's program aims to foster students' abilities to read academic papers and understand lectures and seminars in English. The doctoral program prepares students for giving presentations in English and equips them with the ability to answer questions and handle discussion and challenges. Each graduate school hosts TOEIC tests as well.

Two hundred and sixty four students from 34 countries are studying at NAIST. We offer them an environment where international students from different backgrounds and cultures study with Japanese students so that many of them grow to be globally-aware human resources who have an international mindset, practical communications skills, excellent techniques in research, and areas

of expertise.

○Scholarships for Studying Abroad

Many of the students at NAIST use the following scholarships to study abroad. While students can apply to some of the programs individually, some are offered as part of graduate school programs. Please consult your supervisor or the International Affairs Division if you are considering studying abroad.

1. Support for studying abroad by the Japan Student Services Organization (JASSO) Scholarship
   http://www.jasso.go.jp/ryugaku/study_a/scholarship.html
2. Tobitate! Study Abroad Program JAPAN
   http://www.tobitate.mext.go.jp/
3. Lists of scholarships compiled by JASSO
   http://ryugaku.jasso.go.jp/scholarship/

○On-campus procedures before studying abroad

In order to study or receive instruction at an academic or research institution overseas, a Study Abroad Request form must be submitted to and approved by the Faculty Council, so please submit this form along with the Course Registration Request for Special Auditing Dispatchment Student or the Application for Special Research Dispatchment Student to the International Affairs Division at least two months before your planned departure. Even if the study abroad program you have chosen does not require a Study Abroad Request form, you must submit an Overseas Travel Notification for emergencies so that your safety can be confirmed in the event of natural disasters, terrorist acts, etc. Please see the following website “Procedures for study / travel abroad” for details.
https://ad-info.naist.jp/gakusei/member/kaigairyugaku/index.html

○Visas

When you decide to travel abroad, please make sure to investigate where you are traveling and whether or not you need a visa to travel there. Also, leave enough time for whatever paperwork or procedures that may be necessary.

Regardless of the length of your stay, you may have to apply for a visa depending on the purpose of your visit. For example, to study in the US an F-1 visa is necessary and students must start preparing for their study abroad (preparing paperwork, obtaining forms and certificates, obtaining a passport, completing an interview, etc.) at least two months prior to their departure date. In France, online registration and application is possible and a visa interview is waived if you will be an exchange student. In this way, paperwork, requirements, and application processes may vary depending on your destination, program details and the agreements related to your studies, so it is necessary to start collecting information from the institution you will be attending and from the appropriate diplomatic agency in advance.

Depending on your destination, there may be punitive measures taken or you may be denied entrance to the country if you have not completed the proper visa application process. If you have any questions concerning the visa process or necessary paperwork, feel free to consult with the International Affairs Division staff.

○Safety and security information before traveling overseas

When you travel abroad, please make sure that the country is safe to visit by checking the safety

and security information for the destination country on the Foreign Ministry's website (overseas safety page).

The Foreign Ministry encourages Japanese nationals who are planning to stay abroad longer than 3 months to submit a Resident Report, and Japanese nationals who are planning to stay less than 3 months to register at 'Tabi-regi', the registration system for Japanese travelers abroad.

Please submit a notice or register with the Foreign Ministry when you go abroad in addition to the on-campus administrative procedures.

Please see the Foreign Ministry's website for details.

Information about "Safety when travelling abroad" has been included on the following website to contribute to risk management for those students who will or are travelling abroad. We ask that students check the following website to consider and plan for their safety when abroad.
https://ad-info.naist.jp/gakusei/member/kaigairyugaku/caution/caution.html

○International travel insurance

At NAIST, international travel insurance in case of injury, etc. domestically and abroad is purchased for students who travel officially for NAIST. The details of the coverage can be found at the following URL(in Japanese). Make sure to check the coverage and details before departure.
https://ad-info.naist.jp/k-soumu/member/shougaihoken/

Please note that if you will travel or study abroad during a leave of absence, you are not eligible for the above travel insurance, so you must purchase insurance individually.

In cases where hospitalization or surgery become necessary, medical and other costs for transportation, visitation, etc. may soon become extremely expensive. Additionally, depending on the level of medical treatment and facilities of the destination, transferal to another country may be necessary and require additional payment. Please purchase insurance to protect yourself from these possible expensive costs.

Make sure your family also knows the details of your insurance coverage before your departure.

５－５．English E-Learning System (ALC NetAcademy２)

１．What's ALC NetAcademy 2?

ACL NetAcademy 2 is an online English learning system which provides self-study courses to improve English competence, practice TOEIC, and develop reading skills for scientific papers.

２．Who can Use NetAcademy 2?

Students and faculty members of NAIST can use the system. This system is on service 24 hours a day and is accessible at home or from outside the campus. Registration is not required.

３．How to Access?

＜＜NAIST TOP PAGE → Intranet → Academic Affairs → ALC NetAcademy＞＞

<How to login> Account : MANDARA-DOMAIN¥"MANDARA account"
Password: "MANDARA password"

４．What Courses are available?

The following five courses are available:

- Super-standard Course
- Standard Course

- Course for Beginners and Intermediates Plus
- Technical English (Basic Course)
- Technical English (Power-up Course)

５．Recommended System Requirements

NetAcademy 2 has been tested on the following platforms:

OS	Windows Vista SP2 / 7 SP1 / 8 , 8.1 ※
WWW Browser	InternetExplorer 8 / 9 / 10 / 11
Browser Plug-in	FLashPlayer 12.0

※NetAcademy 2 should run on other platforms as long as Flash Player operates properly. However, there is a possibility that texts and animations are not displayed properly, etc.
※On MacOS X 10.3/10.4, TOEIC Test in the Course for Beginners and Intermediates Plus has been confirmed not to work properly.

・"L" in the "Type" column stands for lectures, "P" for practices.
・Faculty members in charge shown in parentheses are part-time instructors. The detailed schedule for intensive lectures can be found in the Online Syllabus.

Schedule of subjects whose specific dates are not stated in class period will be posted on the electronic syllabus as details are decided.

＜＜NAIST TOP PAGE → For Students (Internal Only) → Education Support Systems → Online Syllabus System＞＞

６－２．Numbering Information

Subject numbers consist of 4-digit numbers based on levels of courses.

［How to read the subject numbers］

First digit：The first digit in the 4-digit numbers indicates levels of subjects:

1XXX = General Subjects（For master's course）
2XXX = Introduction Subjects（For master's course）
3XXX = Basic Subjects（For master's course）
4XXX = Specialized Subjects（For master's course）
5XXX = PBL Subjects（For master's course）
6XXX = Research-based Subjects（For master's course）
7XXX = Courses for research skills（For doctoral course）
8XXX = Courses for independent research abilities（For doctoral course）

From second to fourth digits：The from second to fourth digits in the 4-digit numbers indicate serial

X**XXX** = Serial numbers (ranging from 01 to 99)

Depending on course subjects there are classifications. The class code is displayed in the list of subjects and faculty members in charge.

６－３．2019 Timetable

Check the 2019 Timetable at:

＜＜NAIST TOP PAGE → For Students (Internal Only) → Education Support Systems → Online Syllabus System＞＞

7 Degree examination criteria, etc.

7 Degree examination criteria, etc.

7－1. Degree examination criteria

＜Master's course＞

（Criteria for Thesis Examination）

For master's theses, novelty and applicability are important, but examination shall be performed considering the following areas.

Specifically, each screening committee member will evaluate master's theses considering the following areas, and theses shall be deemed as passing the examination if evaluation meets the established criteria.

1. Students have a full understanding of the research background and goals regarding.
2. The research procedures and methods are carefully developed regarding.
3. The experimental data, theoretical calculation results and research results are carefully organized and analyzed according.
4. The development of conclusions and new theories based on achieved data is logically and fully explained.
5. The thesis utilizes the proper academic methodology.
6. Research ethically issues are properly handled

＜Doctoral course＞

（Criteria for Thesis Examination）

For doctoral theses, novelty and applicability are required, and a principal part of the doctoral thesis being published or scheduled to be published by the candidate in a peer-reviewed scientific journal or as a book or at an international conference with a peer review system, etc. is prerequisite for thesis examination.

When doctoral theses meet the above requirements, examination shall be performed considering the following areas.

Specifically, each screening committee member will evaluate doctoral theses considering the following areas, and theses shall be deemed as passing the examination if evaluation meets the established criteria.

1. Students have a full understanding of the research background and goals regarding.
2. The research procedures and methods are carefully developed regarding.
3. The experimental data, theoretical calculation results and research results are carefully organized and analyzed according.
4. The development of conclusions and new theories based on achieved data is logically and fully explained.
5. The thesis utilizes the proper academic methodology.
6. Research ethically issues are properly handled

○Milestones and capstones for progressive degree achievement

At NAIST, in order to promote a smooth path towards obtaining degrees, capstones and milestones for both the master's and doctoral programs have been established to facilitate progression. This system will be in place for students entering NAIST from the 2018 school year. The following is a guideline example for milestone/capstone timing for students entering NAIST in April and graduating within the standard period of study.

＜Master's course＞

- Milestone: (A mid-term report) by November of the 2nd year
- Capstone: (Master's thesis examination) in February of the 2nd year

＜Doctoral course＞

- Milestone: (A mid-term report) by November of the 1st year
- Milestone: (A mid-term report) by November of the 2nd year
- Milestone: (A mid-term report) by November of the 3rd year
- Capstone: (Doctoral thesis examination) in February of the 3rd year

※For the master's course, milestone evaluation is performed every year from the 2nd year

A rubric which indicates milestones and capstones can be found in the Research Guidance System.

In proceeding with your individual research, this rubric may be regularly referred to determine what is necessary to pursue even higher quality research and may also be helpful in writing and revising your thesis.

7－2．Degree Regulations

Degree Regulations of Nara Institute of Science and Technology

April 1, 2004
Regulations No. 19

Article 1 (Purpose)
The purpose of these Regulations is to stipulate matters relating to conferral of degrees by the Nara Institute of Science and Technology ("NAIST") pursuant to Article 44-3 of the Regulations of the Nara Institute of Science and Technology (Regulations No. 1, 2004).

Article 2 (Degree types and majors)
1. Degrees conferred by NAIST shall be master's degrees and doctoral degrees.
2. Science, engineering or biological sciences shall be specified in the degree certificate as the name of the area of studies.

Article 3 (Degree requirements)
1. A master's degree shall be conferred to students who have completed the master's course at NAIST.
2. A doctoral degree shall be conferred to students who have completed the doctoral course at NAIST.
3. In addition, a doctoral degree may be conferred to individuals who have passed the doctoral thesis examination and been recognized as having academic ability equivalent to or greater than that of a student who has completed the doctoral course at NAIST (individuals who have passed the "Examination of Academic Ability").

Article 4 (Submission of thesis)
1. To complete the master's course, students shall submit a master's thesis together with the prescribed application form for thesis examination to the Dean of the Graduate School of Science and Technology and take the master's thesis examination.
2. Examination of research results on specified themes may be conducted in place of the master's thesis examination specified in the foregoing subsection.
3. To complete the doctoral course, students shall submit a doctoral thesis together with the prescribed application form for thesis examination, list of related papers, abstract of the thesis and curriculum vitae to the Dean of the Graduate School of Science and Technology and take the doctoral thesis examination.
4. To receive a doctoral degree pursuant to the provision of Article 3-3, students shall specify the

major to be indicated in the degree certificate, and pay the thesis examination fee when submitting a degree application form, doctoral thesis, list of related papers, abstract of the thesis, and curriculum vitae to the President.

5. The thesis examination fee shall be 57,000 yen.
6. Upon receipt of the documents specified in subsection 4 of this Article, the President shall forward the documents to the Dean of the Graduate School of science and Technology.
7. Thesis and other documents, once submitted, shall not be returned, and the thesis examination fee, once paid, shall not be refunded.

Article 5 (Thesis)

1. One thesis shall be accepted for degree examination. Students shall submit one copy per master's thesis and three copies per doctoral thesis, provided, however that additional papers may be attached to the thesis for reference.
2. The Dean of the relevant Graduate School may request submission of a translation of the thesis, model, specimen, or other materials if necessary for the thesis examination.

Article 6 (Thesis examination and Examination of Academic Ability)

1. The master's and doctoral thesis examinations shall be conducted by means of a written or oral examination on specialized topics relating to the thesis.
2. The Examination of Academic Ability specified in Article 3-3 above shall be conducted by means of a written or oral examination on the academic subjects relating to the doctoral thesis and on foreign language.

Article 7 (Screening Committee)

1. The Faculty Council shall have a Screening Committee for evaluating theses, and conducting the master's and doctoral thesis examinations and the Examination of Academic Ability.
2. Each Screening Committee shall consist of at least three faculty members of the Graduate School of Science and Technology and the shared educational and research institutions. In this case the Committee members shall include at least two professors, or one professor and one Associate Professor recognized by the Faculty Council.
3. Each of the Screening Committees shall have a chief referee.
4. Faculty members of other graduate schools or research institutions outside of NAIST may be invited to join the Screening Committee if doing so is deemed necessary by the Faculty Council of the Graduate School for screening purposes.
5. Evaluation of doctoral theses submitted pursuant to Article 4-4 and the Examination of Academic Ability shall be completed within one year after the submission thereof, provided, however, that such a period may be extended if there is a special circumstances, subject to deliberation by the Faculty Council.

Article 8 (Notification of results)

1. The Screening Committee involved in conferral of master's degrees shall notify the Faculty Council of its decision as to whether to confer a master's degree or not in writing, immediately after completion of the evaluation of thesis and master's thesis examination.
2. The Screening Committee involved in conferral of doctoral degrees shall notify the Faculty Council of its decision as to whether to confer a doctoral degree or not in writing, immediately after completion of the evaluation of thesis and doctoral thesis examination or the Examination of Academic Ability. In this case, the relevant document shall be submitted from the following documents:
   (1) Abstract of the thesis submitted pursuant to Article 4-3, summary of the evaluation of the thesis and summary of the results of the doctoral thesis examination
   (2) Abstract of the thesis submitted pursuant to Article 4-4, summary of the evaluation of the thesis and summary of the results of the doctoral thesis examination and the Examination of Academic Ability

Article 9 (Deliberation of degree conferral)

The Faculty Council shall discuss whether to confer a degree or not based on the notification specified in the foregoing article.

Article 10 (Notification of conclusion)

The Dean of the Graduate School of Science and Technology shall notify the President of the conclusion of the deliberation reached by the Faculty Council thereof in writing.

Article 11 (Conferral of degree)

1. The President shall confer a degree to the student who has been approved to receive the degree based on the notification specified in the foregoing article.
2. The format of a degree certificate shall be Form No. 1, Form No. 2 or Form No. 3 shown separately.
3. If it has been decided not to confer a degree to a certain student, the President shall notify the student of the decision.

Article 12 (Publication of abstract of doctoral thesis)

Within three months after conferring a doctoral degree, the President shall notify the Minister of Education, Culture, Sports, Science and Technology of the conferral and make the abstract of the doctoral thesis and the summary of the results of the evaluation of the thesis public via the internet .

Article 13 (Publication of doctoral thesis)

1. The recipient of a doctoral degree shall make his or her doctoral thesis public within one year after receipt thereof, provided, however, that this provision shall not apply if the thesis has been made

public prior to the receipt thereof.

2. Notwithstanding the provision of the foregoing subsection, a recipient of a doctoral degree may make the abstract of his or her doctoral thesis public instead of the full text, subject to approval of NAIST, if there is a justifiable reason. In this case, NAIST shall allow access to the full text of the doctoral thesis when requested.
3. The public release established in the previous two clauses for doctoral degree recipient, shall be conducted via NAIST and the internet.

Article 14 (Reference to the degree)

When an individual who has been conferred a degree from NAIST refers to his or her degree, the name of NAIST shall be also mentioned together with the degree.

Article 15 (Withdrawal of a degree)

If it transpires that an individual was conferred a degree by NAIST by fraudulent means, the President shall withdraw the degree, have the degree certificate returned, and make public the fact, following the deliberation by the Faculty Council.

Article 16 (Miscellaneous provision)

Other matters relating to conferral of degrees shall be provided for separately.

Supplementary provisions

These Regulations shall come into effect on April 1, 2004.

Supplementary provisions

(Effective date)

1. These Regulations shall come into effect on June 1, 2013.
   (Transitional measures)
2. The revised degree regulations (hereinafter referred to as “new degree regulations”) outlined in Article 12 shall apply to those who have been conferred the doctoral degree on or after the date of regulation revision. However, for those who were conferred the doctoral degree prior to the date of revision, the regulations in force at the time of conferment shall apply.
3. The revised degree regulations outlined in Article 13 shall apply to those who have been conferred the doctoral degree on or after the date of regulation revision. However, for those who were conferred the doctoral degree prior to the date of revision, the regulations in force at the time of conferment shall apply.

(Effective date)

1. These Regulations shall come into effect on April 1, 2018.
   (Transitional measures)
2. Those students who entered NAIST in or before the 2017 school year, excluding the regulations of 7-2 and notwithstanding the revised provisions, shall be governed by the previous stipulations.

7－3. Schedule until degree conferral

Degree conferral is performed every 3 months. (March, June, September and December) The rough schedule until degree conferral below is for April entrance and March graduation within the standard study period for each program.

＜Master's course＞

Late December	Submission of thesis examination request and thesis summary →Submit these to the graduate school dean by the submission deadline. (the division office of your laboratory) Fill in the name of the specialization (Science, Engineering, or bioscience) you prefer on the request form.
Mid-January	Faculty Council (Thesis title, review committee member approval)
Mid-February to late February	Master's thesis presentation (Thesis review and examination) →Committee members confirm the capstone and follow the Criteria for Thesis Examination for the evaluation. Results are reported to the Faculty Council.
Late February or early March	Faculty Council (Examination report, deliberation, ruling: completion approval) →Confirmation of completion requirements (Graduation credits, passing of thesis examination, passing of examination) and approval of completion

＜Doctoral course＞

Early December	Submission of thesis examination request, list of research papers, thesis summary and resume →Submit these to the graduate school dean by the submission deadline. (the division office of your laboratory) Fill in the name of the specialization (Science, engineering, or bioscience) you prefer on the request form.
Mid-December to mid-January	Faculty Council (Thesis title, review committee member approval)
Mid-December to mid-February	Public hearing (pre-examination) →Committee members confirm the capstone and follow the Criteria for Thesis Examination for the evaluation. Thesis (final version) guidance is given when necessary. If there are opinions related to evaluation, committee members will consider them. Passing students proceed to thesis examination. Corrections are made to the public hearing version to complete the final thesis version
Upon passing the pre-examination	Thesis Examination →Committee members follow the Criteria for Thesis Examination for the final thesis version examination. Students participate when necessary. Results are reported to the Faculty Council.
Late-February or early March	Faculty Council (Examination report, deliberation, ruling: completion approval) →Confirmation of completion requirements (Graduation credits, passing of thesis examination, passing of examination) and approval of completion

8 Study Support

8 Study Support

8－1. Health Care Center (③ on the campus map)

To maintain the physical and mental health of our faculty, staff and students, the Health Care Center provides health examinations, daily treatment, and lifestyle guidance and health education. These three aspects of health promotion, namely checkups, treatment, and prevention, are addressed at the Health Care Center on the 2nd floor of the University Union building. The Center has an examination room, a chat and health counseling room, and a recovery room in a functional layout. A medical doctor and a nurse are regularly on duty.

Director of Health Care Center: Hidetaka Hogaku

Health Care Center Nurse: Kinuyo Nishiyama

Hours: 9:00 – 13:30, 14:30 - 17:00, Monday - Friday (excluding year-end/New Year and national holidays)

The Health Administration Center notifies members of necessary information such as schedule of health examinations by e-mail. In addition, the annual HCC NEWS (Health Care Center News) provides a variety of useful information.

＜＜NAIST TOP PAGE → About NAIST → Offices → Health Care Center＞＞

8－2. Office for Students with Disabilities

The Office for Students with Disabilities has been established in order to offer support for students with disabilities to have independent student lives at NAIST. The office staff have specialized training and knowledge about disabilities and counseling, and works in cooperation with related NAIST departments, faculty and staff to provide support to students with disabilities and serve as a student counselor.(academic and mental)

8－3. Career Services Office

The Career Services Office aims to support students in their career development. The office, located on the first floor of the Administrative Office building (next to the Educational Affairs Division), has job information and a collection of employment-related materials (including study-aid books for SPI and quarterly corporate reports) available. Also, the career development counselor is available to provide various career development support.

1. **Hours:** 9:30-17:30 (Closed between 12:00 and 13:00)（Closed on weekends and university holidays）
2. **Career counselling**

We provide advice on concerns and anxiety related to your career vision and job hunting. Career development counselors and career advisors from public organizations are available for counselling. Counselling services are available by appointment only and reservation instructions can be found on the Career Services Office website. Confidentiality will be strictly observed.

[URL for booking] http://www.supersaas.jp/schedule/naist-career/?lang=en

3. **Career guidance**

We hold career guidance seminars to support students in their career development and job hunting. Seminars, including the dates, are available on the Career Services Office website or via e-mails.

4. **Lending service for materials related to job hunting**

You can borrow materials that are useful in job hunting in Japan or career development. The rules for borrowing materials are also on the Career Services Office website.

5. **Contact**

Extension: 5921/5922/6239　E-mail: career@ad.naist.jp　URL: http://www.naist.jp/career/

８－４．Information iniTiative Center (ITC) {⑦ on the campus map}

ITC manages and operates the information infrastructure and information network (Mandara System) in NAIST. ITC also conducts the support of education and research by utilizing Information security management and Information media.

What is "Mandara"

The university-wide information system at NAIST is called "Mandara", which refers to the truth in Esoteric Buddhism (i.e., the seeking of the infinitesimal paradoxically leads to infinite proliferation).

The Mandara system features strategic architectural configurations to meet user needs and build an advanced environment.

Meanwhile, an information processing environment has been developed from the researchers viewpoint, based on the basic principle of "fulfillment without excess or deficiency" represented by the idea Mandara.

○How to use the Mandara System

For information about major services, please see the following URLs.

- Mail
  http://itcw3.naist.jp/ITC-local/Mail/mailenv.en.html
- Wireless LAN
  http://itcw3.naist.jp/ITC-local/wireless/index.en.html
- Campus Licensed Software
  http://itcw3.naist.jp/ITC-local/campuslicense/index.en.html
- Printer（Multi-function Printer）
  http://itcw3.naist.jp/ITC-local/manual/printer/printer.en.html
- High Performance Computer Server
  http://trac.naist.jp/trac/h29grid/

For information about other services and inquiries, please refer to the upper tabs of the following URL.

http://itcw3.naist.jp/ITC-local/index.en.html

And, when you use the Mandara System, you must observe the Ethical Regulations and the following Basic Rules.

- Ethical Regulations for NAIST Information Network Use
  http://itcw3.naist.jp/ITC-local/policy/ethical_regulations.en.pdf
- Mandara Operation Policy
  http://itcw3.naist.jp/ITC-local/policy/mandara_operation_policy.en.pdf
- Password
  http://itcw3.naist.jp/ITC-local/password/good-passwd.en.html
- Computer Security on Mandara
  http://itcw3.naist.jp/ITC-local/policy/security/index.en.html
  Keep your computer secure in order to use the network properly.
- Use of P2P Software
  http://itcw3.naist.jp/ITC-local/policy/p2p/p2p-request.en.html
  Use of P2P file-sharing software in NAIST or the NAIST dormitory is prohibited.

9 Campus Life

9 Campus Life

9－1. Tuition and payment

○Tuition fee and due date (by automatic bank transfer)

Course	Tuition fee (*1)	Due date (*2)
Master's course Doctoral course	535,800 yen (267,900 yen for a half-year term)	Spring semester (April to September): Due May 27 (Monday), 2019 Autumn semester (October to March): Due November 27 (Wednesday), 2019

*1 : If the tuition fee is revised during your enrollment, the new tuition fee will be charged. (You will be notified of the tuition fee for the semester by e-mail during May and November.)

*2 : Payment (by automatic bank transfer) is due on May 27 and November 27 every year. If the due date falls on a non-business day of the financial institution, the payment will be transferred on the following business day. (Your account balance is checked at 3:00 pm on the business day preceding the due date.)

○Payment

The tuition fee for a half-year term is automatically withdrawn from your bank account on the due dates of the spring and autumn semesters designated by NAIST. If you wish to pay the tuition fee for both semesters combined on the due date in May, please contact us by April 26 (Friday), 2019. If you have applied for tuition fee waiver, payment of the tuition fee will be postponed until the result of the application is announced. For details of automatic bank transfer procedures and other related matters, please inquire at the Accounting Section of the Finance Division (extension: 5038).

Note that failure to pay the tuition fee for two consecutive semesters will result in expulsion from NAIST.

9－2. Student ID Card

NAIST students are issued a student ID card, which not only verifies your status as a NAIST student but also serves as an electronic key. This key is needed for: entry to NAIST's facilities before or after the normal service hours, namely between 7:00 pm and 7:30 am, and on Saturday, Sunday and national holidays; use of the automatic certificate issuing machine; and borrowing of books from the NAIST Library. Therefore, you should carry your student ID card at all times while attending NAIST. Your graduate school, year of enrollment, and student number are registered in the card, and card readers automatically scan this information to check whether you are eligible to enter specific facilities in NAIST.

○Precautions on handling your student ID card

① You should keep your student ID card in a case and carry it at all times at NAIST.
② You are not allowed to lend or assign your student ID card to anyone else.
③ If you lose your student ID card or your card has become unusable due to failure of the magnetic strip, etc., you should immediately report it to the Academic Affairs Section of the Educational Affairs Division.
If the card reader does not react properly upon inserting your student ID card to enter a certain building, call the Security Center on the first floor of the Administration Bureau building through the interphone, state your affiliation and name, and the key will be unlocked for you.

④ When your student ID card has expired or you are no longer a NAIST student due to withdrawal or for other reasons, return your student ID card to the Academic Affairs Section of the Educational Affairs Division without delay.
⑤ Protecting your card:
・Keep your student ID card away from strong magnetic fields or devices (e.g. NMR machines).
・Do not leave your card in hot places (e.g. in a car during summer).
・Do not fold your student ID card.

９－３．Student Personal Report

The information contained in the "Student Personal Report" (Gakusei kojin houkokusho) submitted at the time of enrollment is used for contacting you in case of emergency. If any of the following registration details changes, please inform the Academic Affairs Section of the Educational Affairs Division without delay.

Registration details	・Your address and telephone number (fixed and/or mobile) where you can be reached after enrollment in NAIST ・Information about your place of work (if you are a working student) ・Name of a contact person in case of emergency, person's relationship with you, and his/her address and telephone number

９－４．Procedures and issuance of certificates

○Procedures

When requested by NAIST, by means of a notice on the bulletin board, etc., you should perform the procedures as requested within the specified period. You should also perform the prescribed procedures when necessary for your own personal reasons. Please note that failure or delay in doing so could cause hinder you in many ways and become an inconvenience to other people.

Document to be submitted	When to submit	Contact office
Leave of absence request form (Kyugaku Negai)	When you are to take a leave of absence for three consecutive months or longer by illness,studying abroad,and so on. (If illness is the reason for the leave, a medical certificate should be attached.) * The form should be submitted at least two weeks in advance.	Academic Affairs Section, Educational Affairs Division
Return from leave request form (Fukugaku Negai)	When you wish to return to NAIST before the period of the leave of absence is over. （For those who were absent due to illness, please attach a medical certificate.）	
Return from leave notice form (Fukugaku Todoke)	When you wish to return from leave during your scheduled leave of absence period.	
Withdrawal form (Taigaku Negai)	When you are to withdraw from NAIST * The form should be submitted at least two weeks in advance.	
Change of name form	When your name changes * A residence certificate or other document proving your change of name should also be submitted.	

Student ID card reissue request form	When you have lost your student ID card or your card has become unusable due to damage or dirt	
Overseas travel Notification	When you are to travel overseas for less than three months (except when the travel is needed as part of the regular coursework at NAIST)	Education Planning Section, Educational Affairs Division
Study Abroad Request	When you go studying abroad * The form should be submitted at least two months in advance.	International Affairs Section, International Affairs Division
Plan after completion of course /job (informal employment offer) report form	When you graduate or leave school	Career Services Office
The forms to be submitted to the Educational Affairs Division are available at its counter, or can be downloaded from the intranet and website for NAIST students at: ＜＜NAIST TOP PAGE → For Students (Internal Only) → Documents to be submitted＞＞		

○Notes on procedures for leave of absence or withdrawal

（1） Leave of absence

- You can apply for leave of absence if you are unable to attend school for three consecutive months or longer due to illness or for other justifiable reasons.
- The period of leave of absence is up to one year, however, you may apply for an extension of the period for another one year at the longest, if you have special reasons. To apply for an extension of the period of leave of absence, you are required to submit the leave of absence (extension) request form again, at least two weeks prior to the expiration of the initial period of leave of absence.
- Upon expiration of the period of leave of absence, you are automatically readmitted to NAIST. Please submit “Return from leave notice form.”
- The period of leave of absence does not count toward the standard years of study and years of enrollment.
- Please also indicate when you expect to complete your course after returning to NAIST.
- Some certificates (including certificate of expected completion, certificate of health, and certificate of student travel discount) cannot be issued during the period of leave of absence.
- You cannot use the NAIST Library during the period of leave of absence.
- You do not have to pay tuition fees for the period of leave of absence.

（2） Withdrawal

- If you withdraw from NAIST after having been enrolled in the doctoral course for at least three years, provided your instructor confirms you have received his or her research guidance, you are treated as “having withdrawn from NAIST with the approval of your research instructor” in your personal record.
- Tuition fees, once paid, cannot be reimbursed.

（３）Common matters

・Permission for both leave of absence and withdrawal is conditioned on payment of the tuition fee.

・Tuition fees, once paid, cannot be reimbursed except in the following cases:

If leave of absence is permitted, the portion of the tuition fee for the period of leave of absence will be reimbursed.

If you paid the combined tuition fee for the spring and autumn semesters in April, and are permitted to withdraw from NAIST before the beginning of the autumn semester, the tuition fee for the autumn semester will be reimbursed.

・The deadline for submitting the form is two weeks prior to the date you wish to take leave of absence or withdraw. If you fail to submit the form by the deadline, the date of permission will be in the following month.

・In principle, a request for leave of absence or withdrawal should be made on a semester by semester basis.

Leave of absence: The period should commence from April or October and end at the end of September or March, in principle.

Withdrawal: The date you wish to withdraw from NAIST should be the end of September or March.

・You should indicate the reason for the leave of absence or withdrawal in the form in detail; “for personal reasons” cannot be accepted.

Leave of absence: If you take leave of absence due to illness, a medical certificate should be attached. If the reason is “pressure of business,” indicate the name of your workplace.

・Please consult with Health Care Center for your health checkup, soon after you come back from leave of absense.

・Note that you may be required to move from NAIST’s dormitory or take procedures to stop payment of scholarship.

○Certificates that are automatically issued

You can use the automatic certificate issuing machine to have the following certificates issued within the same day: certificate of enrollment, certificate of expected completion, certificate of academic record, certificate of completion, certificate of health and certificate of student travel discount. For conditions of issuance of these certificates, please refer to the following table.

Certificate	Conditions of issuance	Service hours and location of the automatic certificate issuing machine
Certificate of enrollment(Japanese/ English)	Not issued to non-regular students, including research fellows.	Service hours: 7:30 am to 7:00 pm Monday to Friday (excluding national holidays and year-end holidays) Please apply for certificates in advance, as the machine may not be working outside of normal office hours
Certificate of expected completion(Japanese/ English)	Students should have been enrolled in the master’s course for at least six months or be in the second year in the doctoral course to apply for this certificate.	
Certificate of completion of Master’s course (Japanese/ English)	Only available for those who have proceeded to the doctoral course internally from the master’s course at NAIST.	

Certificate of academic records of Master's course (Japanese/ English)		Location: Entrance lobby of NAIST Library
Certificate of academic record (Japanese/ English)	The certificate of academic record is an official certificate issued in the name of the Dean of the Graduate School that does not include failed courses.	
Academic record (Japanese/ English)	The academic record is issued for students to check their academic performance including failed courses.	
Certificate of health(Japanese only)	The certificate is issued only to those who have completed all annual health checkups. Students admitted to NAIST from the autumn semester will be issued the certificate after taking the annual health checkup in the following year.	
Certificate of student travel discount (Japanese only)	・Up to 10 certificates are issued per student annually. ・The certificate is valid for three months. (Not issued to non-regular students, including research fellows and students on leave of absence.)	

○Certificates issued over-the-counter

If you need certificates other than those issued by the automatic certificate issuing machine, apply at the Student Support Section of the Educational Affairs Division using the prescribed application form. You should apply well in advance, as some certificates take time to issue.

９－５．Commuter certificate

○Student commuter pass

To buy a student commuter pass between your place of residence and NAIST, fill in your student number, name and address in a commuter pass application form (Tsuugaku teiki joshaken hakko hikae) distributed at the beginning of each academic year, and present the form together with a commuter pass purchase form and your student ID card to a train station with a commuter pass office. (If there is no more space on your commuter pass application form, please apply at the Educational Affairs Division for an additional copy.)

The nearest Kintetsu stations designated by NAIST are Takanohara Station on the Kyoto Line, Gakuenmae Station on the Nara Line, and Gakken-Kita-Ikoma Station on the Keihanna Line.

○Student commuter passes for commuting to off-campus facilities

If you are going to work at off-campus facilities as part of your study at NAIST and need a student commuter pass for that purpose, you should apply at the Student Support Section of the Educational Affairs Division to have a commuter certificate issued. The application should be

submitted at least one month before starting work at the off-campus facilities (the certificate takes longer to issue because we must obtain approval from the railway company).

* Non-regular students, including research fellows and students on leave of absence, cannot purchase student commuter passes.

９－６．Scholarships of private organizations

Students will be informed of scholarship programs offered by private organizations whenever applications are invited.

９－７．Tuition fee exemption

NAIST offers a tuition fee exemption program, under which students selected from among applicants are exempt from payment of all or part of tuition fees provided that: the student has difficulty in paying tuition fees for financial reasons and is recognized for academic excellence; or the student has extreme difficulty in paying tuition fees because of the death of the person who would normally have paid the tuition fee within one year prior to his or her admission to NAIST or due to damage by natural disasters to the student or the person who would normally have paid the tuition fee. For details about application procedures, please inquire at the Student Support Section of the Educational Affairs Division.

９－８．Personal Accident Insurance for Students Pursuing Education and Research (PAS)

Personal Accident Insurance for Students Pursuing Education and Research (Gakkensai) insures students enrolled in national, public, and private universities in Japan against unexpected physical injuries they may suffer while attending lectures, university events, extracurricular activities, taking a break on campus, or traveling to and from university or off-campus facilities for research/educational purposes. At NAIST, all students are required to take out the Gakkensai insurance as part of enrollment procedures. For more details about the Gakkensai insurance, please refer to the booklet.

Course	Insurance premium	Insurance period *
Master's course	1,750 yen	2 years
Doctoral course	2,600 yen	3 years

* Valid until March 31 in expected year of graduation for students admitted in April and until September 30 in expected year of graduation for students admitted in October.

９－９．Liability Insurance coupled with PAS

All students are also required to take out the Personal Liability Insurance for Students (Gakkenbai). This optional coverage insures students against third-party liability for damage caused by the student to others or their property while attending lectures, university events, extracurricular activities or traveling to and from university facilities, both on- and off-campus. For more details about the Gakkenbai insurance, please refer to the booklet.

Course	Insurance premium	Insurance period *
Master's course	680 yen	2 years
Doctoral course	1,020 yen	3 years
Amount of coverage ：Up to 100 million yen per incident		

* Valid until March 31 in expected year of graduation for students admitted in April and until September 30 in expected year of graduation for students admitted in October.

9－10. Student dormitories (Campus map 13)

Student dormitories are located within the campus of NAIST as shown below.

[Outline of student dormitories]

Type	Single-person occupancy	Couple occupancy	Family occupancy
Structure	Five-story reinforced concrete building	Five-story reinforced concrete building	Five-story reinforced concrete building
No. of residential units	559	50	10
Floor area	13 ㎡	36.98 – 41.45 ㎡	51.56 ㎡
Fixtures	Desk, bed, mini kitchen, toilet, etc.	Desk, kitchen, toilet, bath, laundry machine, air conditioner, etc.	Desk, kitchen, toilet, bath, laundry machine, air conditioner ,etc.
Common facilities	Bath, laundry, lounge, etc.	―――――	―――――
Dormitory fee	5,900 yen/month	11,900 yen/month	14,200 yen/month
Common service charge	4,100 yen/month	600 – 1,100 yen/month	1,100 yen/month
Utility charge	To be paid by the occupant	To be paid by the occupant	To be paid by the occupant

9－11. Dwellings rented by NAIST for students

NAIST also rents apartment complexes (Nakatomi Daisan Danchi, Tomio Danchi and Heijo Daiichi Danchi) owned by the Urban Renaissance Agency, and rents them out to students upon application. If you are interested, please inquire at the Student Support Section of the Educational Affairs Division for details.

9－12. Parking a car and bicycle

○Commuting by car

You are not allowed to drive a car on the premises of NAIST. Please park your car in the public parking lot in the Takayama District, north of NAIST. The parking fee must be paid in cash (300 yen per day) or using a parking pass. Please note that the first time you buy a parking pass, you should buy it at the Foundation for Nara Institute of Science and Technology (in Takayama Science Plaza) at the north of the public parking lot in the Takayama District. Anytime after that, you can buy the pass at the convenience store on the first floor of the University Union.

- Parking pass fee (for students): 1,500 yen per month, 4,000 yen per three months, 7,500 yen per six months

○Commuting by bicycle and motorcycle

You are not allowed to ride a bicycle or motorcycle on the premises of NAIST. Please park your bicycle or motorcycle in the public parking lot in the Takayama District, north of NAIST. Parking is free.

If you wish to use the parking lot, you must register at the Student Support Section of the Educational Affairs Division. Parking of bicycles and motorcycles in the parking lot without registration constitutes illegal parking, and such bicycles and motorcycles will be removed.

9－13. Student welfare facilities

○University Union (Campus map 3)

University Union houses a restaurant, tea room, convenience store, and healthcare center for the welfare of students and faculty members of NAIST.

○Social venue for researchers: Guesthouse Sentan (Campus map6)

The guesthouse Sentan is a facility for faculty/staff and students as well as visiting researchers. For more details, please refer to the website of NAIST.
http://www.naist.jp/en/campuslife/recreational_facilities/sentan.html
[Accommodation] Reservations: Welfare Section of Personnel Division
[Assembly Hall] Reservations: Welfare Section of Personnel Division
[Fitness Room] No reservation needed to use the fitness room.

○Sports facilities

Students and faculty members of NAIST may use the following sports facilities for free.

Facilities	Open hours	Selection by drawing
Athletic field	8:00 am to sunset	Successful applicants are selected by ballot, which is held on the 20th day of the preceding month (or the following weekday if the day falls on a Saturday, Sunday or national holiday). Venue of ballot: Lobby on the first floor, Interdisciplinary Frontier Research Complex No.2 Time of ballot: 9:00 am
Volleyball/basketball court	8:00 am to 10:00 pm	
Tennis court	weekdays 8:00 am to sunset weekends,holidays 7:00 am to sunset	
Tennis court (with lighting)	weekdays 8:00 am to 9:00 pm weekends,holidays 7:00am to 9:00 pm	

You can also rent sporting goods for tennis, softball, etc. and barbecue equipment.

For details about using the sports facilities, please inquire at the Student Support Section of the Educational Affairs Division.

9－14. Student Consultation, Our various counseling service systems

○Student Consultation

Graduate students are faced with a variety of different problems and worries in the course of their everyday lives. In order to give support to students facing problems, each graduate school, the Health Care Center, and the Educational Affairs Division, has a Miscellaneous Consultation for Students office with consultation staff on hand. As well as providing advice for the solution of problems, consultation staff can also point consults to an appropriate consultation office. So don't keep your troubles to yourself. If you have any worries, please talk them over with Miscellaneous Consultation for Students staff. Strict confidentiality is maintained regarding the content of all consultations. For more details about consultation staffs, please refer to the website of NAIST.

＜＜NAIST TOP PAGE → For Students (Internal Only) → Student Consultation＞＞

○Consulting Issues Related to Harassment

Harassment is behavior which violates a person's human rights by unwanted verbal and/or physical conduct that hurts the person's sense of self. There are primarily five types of harassment:

Sexual Harassment	Academic Harassment	Power Harassment
Harassment related to leave due to pregnancy, birth and child-care, etc.		Moral Harassment

In our University, we have harassment consultants to deal with complaints and consultation needs related to harassment. If you have any complaints or issues, feel free to contact a consultant by phone or e-mail. For more details regarding harassment consultants etc., please refer to the University's homepage.

＜＜NAIST TOP PAGE → For Students (Internal Only) → Consulting Issues Related to Harassment＞＞

○Counseling regarding course content

We have office hours for you to help deepen your understanding of the courses offered. During office hours, students can visit the laboratories of our teaching staff overseeing the courses and ask questions about the courses or consult the teaching staff. As the office hour schedules and contact methods are established by each professor please check the corresponding page on each subject's syllabus. Check the course syllabus at:

＜＜NAIST TOP PAGE → For Students (Internal Only) → Academic Affairs → Online Syllabus System＞＞

○Counseling related to research guidance

If you have issues related to education and research, you can consult one of your research supervisors. (This university has adopted a system whereby each student is assigned multiple research supervisors.)

9－15. Other matters

○Counter hours of the Educational Affairs Division

8:30 – 17:30 (except 12:00 – 13:00) (except Saturdays, Sundays, national holidays, foundation day of NAIST, Office closing days for summer, and December 29 to January 3)

In case of emergency, you can enter the office, if open, even before or after the counter hours.

○Notification from NAIST

NAIST notifies students of necessary information by e-mail or through the bulletin board. Private notices will usually be sent by e-mail. Please check incoming e-mails carefully: If you overlook important information sent by NAIST such as a request to submit an application, you may suffer a disadvantage.

○Website for students [https://ad-info.naist.jp/member/]

You can access the website for students by clicking "Internal Only" on NAIST's website. This website contains various useful information, including announcements (the latest updates), Academic affairs (curriculum, notice to students for the academic records, changes of class schedule), an online English study system (ALC NetAcademy) and job information.

10 Regulations of Nara Institute of Science and Technology, etc

In reference to the regulations of Nara Institute of Science and Technology, etc as of April, 2019:

A. The current regulations are those as of February, 2019

B. For more information see the NAIST homepage.
(http://reiki.naist.jp/kiyaku/)

C. This translation is for reference purposes only. Should any discrepancies arise between the English and Japanese versions, the Japanese version is the authoritative version, thus the Japanese version will be deemed valid.

Regulations
of
Nara Institute of Science and Technology

April 1, 2004
Regulations No. 1

Table of Contents

I. General Provisions

Article 1 (Purpose)

Nara Institute of Science and Technology (“NAIST”) aims to promote cutting-edge research activities and train skilled personnel through advanced education based on the results of such research activities, thereby contributing to the advancement of science and technology and prosperity of society.

Article 2 (Self-assessment)

1. NAIST shall inspect and assess educational and research activities conducted internally (“Self-assessment”) and make the results of the Self-assessment publicly available, in order to raise NAIST’S education and research standards and achieve the goals and social mission described in the foregoing article.
2. NAIST shall have the results of the Self-assessment examined by third party reviewers.
3. Matters concerning implementation of the Self-assessment shall be provided for separately.

Article 3 (Active provision of information)
NAIST shall actively provide information on its educational and research activities through publications or other suitable means.

II. Educational and Research Organization

Article 4 (University with graduate school curriculum)
NAIST is a university with graduate school curriculum only.

Article 5 (Graduate School and department)
The graduate school and its department shall be established as shown in the following table.

Graduate School	Department
Graduate School of Science and Technology	Department of Science and Technology

Article 6 (Objectives of the Graduate School)
The Graduate School promotes world-leading research in the core fields of advanced science and technology, information, biological, and materials science, and their interdisciplinary areas, and, while pursuing the development and fusion of this research and the exploration of new research fields, will aim to foster human resources with 'aggressiveness, comprehensive skills and knowledge, integrative abilities, and a global outlook' to undertake the solving of the problems facing society and our future, and the new developments in advanced science and technology, through the structured education based on NAIST's research achievements.

Article 7 (Faculty)
1. The Graduate School has an academic faculties.
2. Matters relating to the academic faculty shall be provided for separately.

Article 8 (Courses and their purposes)
1. The Graduate School of NAIST have doctoral courses.
2. Each doctoral course consists of a first course ("Master's Course") and a latter course ("Doctoral Course").
3. The Master's Course aims to equip students with profound academic knowledge from broad perspectives, and help students develop the ability to conduct advanced research in their fields of specialty or engage in professions that require highly specialized skills.
4. The Doctoral Course aims to help students develop the ability to conduct advanced research activities on their own, and research skills of the highest level necessary for highly sophisticated professions, and to foster profound academic knowledge indispensable for such research activities and professions.

Article 8-2 (Education Programs)
1. The Doctoral Course and the Master's Course have each of the following Education Programs:
Information Science and Engineering
Computational Biology
Biological Science

Bionanotechnology
Materials Science and Engineering
Intelligent Cyber-Physical Systems
Data Science
2. Matters relating to the Education Programs shall be provided for separately.

Article 9 (Information Initiative Center)
1. NAIST has an Information Initiative Center.
2. Information Initiative Center has a NAIST Library.
3. Matters relating to the Information Initiative Center shall be provided for separately.

Article 10 (Collaborative educational and research institutions)
1. NAIST has the following common educational and research institutions:
(1) Research and Education Center for Genetic Information
(2) Research and Education Center for Materials Science
2. Matters relating to the collaborative educational and research institutions shall be provided for separately.

Article 11 (Health Care Center)
1. NAIST has a Health Care Center.
2. Matters relating to the Health Care Center shall be provided for separately.

III. President, Vice President, Deans, etc.

Article 12 (Organization)
1. The organization of NAIST consists of the following members:
President
Vice President
Dean of the Graduate School
Division Directors
Deputy Directors of the Divisions
Director of Information iniTiative Center (ITC)
Directors of collaborative educational and research facilities
Director of the Research and Education Center for Genetic Information
Director of the Research and Education Center for Materials Science
Director of the Data Science Center
Director of Health Care Center
Faculty members
General staff members
Other staff members
2. The faculty members of NAIST consist of professors, associate professors, lecturers, assistant professors, and research associates.
3. General staff members of NAIST consist of administrative staff, technical staff, nurses and academic staff.

Article 13 (President)
The President shall be responsible for management of internal affairs at NAIST and supervision of all faculty and staff members thereof.

Article 14 (Vice President)
The Vice President shall be responsible for supporting the President and, upon receiving authorization from the President, be responsible for management of affairs at NAIST.

Article 15 (Dean of Graduate School)
The Dean shall be responsible for the operation of the Graduate School.

Article 16 (Division Directors)
Each Division Director shall be responsible for supporting the Dean of the Graduate School and the operation of the respective division.

Article 16-2 (Division Deputy Directors)
Each Division Deputy Director shall be responsible for supporting the Division Director.

Article 17 (Director of Information iniTiative Center (ITC))
The Director of the Information iniTiative Center (ITC) shall be responsible for administration of the Information iniTiative Center (ITC).

Article 18 (Directors of the collaborative educational and research facilities)
Each Director of the collaborative educational and research facilities shall be responsible for affairs of their respective facility.

Article 19 (Director of Health Care Center)
The Director of the Health Care Center shall be responsible for its administration.

IV. Faculty Council

Article 20 (Faculty Council)
1. The Graduate School has a Faculty Council.
2. The Faculty Councils shall be responsible for expressing opinions concerning the following items which the president deliberates:
   (1) Student admission and course completion
   (2) Degree conferment
   (3) Arrangement of curriculum
   (4) Student recognition and punishment
3. In addition to the items stipulated in the foregoing subsection, the Faculty Councils may also discuss the following areas concerning the education and research governed by the President and the Deans, and present opinions concerning these upon request of the president and/or Deans.
   (1) Matters relating to student registration at and credits from other institutions

(2) Matters relating to the acceptance of special auditing students, special research students, non-degree students, research students and undergraduate internship students

(3) Matters relating to agreements concluded by the Graduate School

(4) Matters relating to laboratory establishment, reorganization and closing

(5) Matters relating to required Graduate School evaluation and assessments pertaining to university appraisal

(6) Other matters relating to education and research

4. The Faculty Council shall consist of full-time and associate professors engaged in educational or research activities of the Graduate School. However, the Dean of the Graduate School may invite faculty members involved in educational or research activities of other Graduate Schools to join its Faculty Council when deemed necessary.

5. Notwithstanding the provision of the foregoing subsection, members of the Faculty Council who are on an official trip abroad, on leave of absence or absent for other reasons may be removed from the Faculty Council.

6. The Dean of the Graduate School shall serve as Chairperson of the Faculty Council.

7. The Chairperson of each Faculty Council shall preside over the council's meetings.

8. In case the Chairperson has become unable to serve his or her role, the Division Deputy chosen in advance by the Dean shall act as the chairman in place of him or her.

9. For the Faculty Council meetings and resolutions to be valid, a majority of all the members thereof shall be present.

10. Resolutions at Faculty Council meetings shall be passed with assenting votes of a majority of the faculty members present at the meeting. In case of a tied vote, the Chairperson shall cast the deciding vote.

11. The Dean may invite individuals who are not Faculty Council members to attend council meetings if he or she deems it necessary to do so.

Article 20-2 (Representative Council)

1. The Faculty Council shall have a Representative Council consisting of those chosen from members the Faculty Council, as designated by the Faculty Council

2. The Faculty Council may make resolutions using the Representative Council resolutions, as designated by the Faculty Council.

V. Admission Capacity and Enrollment Capacity

Article 21 (Admission and enrollment capacity)

The admission capacity and enrollment capacity of the Graduate School of NAIST shall be as shown in the attached table.

VI. Academic Year, Semesters, and Closed Days

Article 22 (Academic year)

1. At NAIST, the academic year shall commence on April 1 and end on March 31 of the following year.

2. Notwithstanding the provision of the foregoing subsection, the academic year shall commence on October 1 and end on September 30 of the following year for students who are admitted to NAIST in the autumn semester.

Article 23 (Semesters)
The academic year specified in the foregoing article shall consist of:
(1) Spring semester (from April 1 to September 30), and
(2) Autumn semester (from October 1 to March 31 of the following year).

Article 24 (Closed days)
1. NAIST shall be closed on the following days:
(1) Sunday and Saturday
(2) Days designated as national holidays under the Public Holiday Law (1948 Law No. 178)
(3) Anniversary of the founding of NAIST (October 1)
(4) Spring, summer and winter holidays
2. Details about the spring, summer and winter holidays in the foregoing subsection (4) shall be provided for separately.
3. The President may designate temporary closed day(s) if he deems it necessary to do so.
4. Regardless of Article 1, classes may be held on holidays when deemed necessary for educational purposes by the dean.

VII. Admission

Article 25 (Applicant qualifications)
1. Admission to the Master's Course is granted to individuals who:
(1) Have graduated from a university stipulated in Article 83-1 of the School Education Law (1947 Law No. 26)
(2) Have been awarded a bachelor's degree pursuant to Article 104-4 of the School Education Law
(3) Have completed the equivalent of a 16-year course of school education abroad
(4) Have taken a correspondence course in Japan offered by a foreign school, thereby completing a 16-year course of school education of the foreign country where the school is located
(5) Have completed a course of an educational institution that is recognized as offering a regular curriculum of a foreign university in compliance with the school education system of the country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology, provided that completion of the said course shall constitute completion of a 16-year course of school education in the country
(6) Have completed the specialized course offered by a special training school that is designated separately by the Minister of Education, Culture, Sports, Science and Technology, on or after the day specified by the Minister, provided that the said course shall be a four-year or longer course, and meet all the other criteria set forth by the Minister
(7) Have been designated by the Minister of Education, Culture, Sports, Science and Technology, in accordance with Article 155-1 (6), of the Enforcement Regulations for the School Education Law (1947 Ordinance of the Ministry of Education No. 11)
(8) Fall into any of the following categories and are recognized by NAIST as having earned the necessary credits with outstanding academic grades:
(a) Individuals who have been enrolled in university for at least three years
(b) Individuals who have completed the equivalent of a 15-year course of school education abroad

(c) Individuals who have taken a correspondence course in Japan offered by a foreign school, thereby completing a 15-year course of school education of the foreign country where the school is located

(d) Individuals who have completed a course of an educational institution that is recognized as offering a regular curriculum of a foreign university in compliance with the school education system of the country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology, provided that completion of the said course shall constitute completion of a 15-year course of school education in the country

(9) Have been enrolled in graduate school before pursuant to Article 102-2 of the School Education Law and are recognized by NAIST as having adequate academic ability to be educated at the Graduate School thereof

(10) Have been recognized by NAIST through an individual entrance screening as having academic ability equivalent to or greater than that of a university graduate and are at least 22 years of age

2. Admission to the Doctoral Course is granted to individuals who:

(1) Have been awarded a master's degree or a professional degree specified in Article 5-2 of the Rules for Degrees (1953 Ordinance of the Ministry of Education No. 9) pursuant to Article 104-1 of the School Education Law ("Professional Degree")

(2) Have been awarded a master's degree or other degree equivalent to a Professional Degree abroad

(3) Have been awarded a master's degree or other degree equivalent to a Professional Degree by completing a correspondence course in Japan offered by a foreign school

(4) Have been awarded a master's degree or other degree equivalent to a Professional Degree by completing a course of an educational institution in Japan that is recognized as offering a regular curriculum of a foreign graduate school in compliance with the school education system of the country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology

(5) have completed their degree by March 2016 by graduating from the United Nations University established under the resolution of the United Nations General Assembly on December 11, 1972 as stipulated in subsection 2, Article 1 of the Special Measures Incidental to Enforcement of the Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University Act (Act No.72 of 1976).

(6) have been recognized as having achieved at least the academic equivalence of a Master's degree through an educational program of ① a foreign educational institute, ② educational institutions which have received the designation in (4) above, or ③ the United Nations University and have passed the equivalent examination and screening process as stipulated in the subsection 2, Article 16 of the Standards for the Establishment of Graduate School (Act No. 28, 1974).

(7) Have been designated by the Minister of Education, Culture, Sports, Science and Technology, in accordance with Article 155 (6), of the Enforcement Regulations for the School Education Law

(8) Have been recognized by NAIST through an individual entrance screening as having academic ability equivalent to or greater than that of a master's degree or Professional Degree holder and are at least 24 years of age

3. Methods for implementing entrance screening, etc., set forth in subsection 1 (10) and subsection 2 (6), hereof shall be stipulated separately.

Article 26 (Timing of admission)

Students shall be admitted to NAIST at the beginning of each semester.

Article 27 (Application for admission)
To apply for admission to NAIST, an admission application form shall be submitted together with designated documents to the President of NAIST.

Article 28 (Screening)
Applicants for admission to NAIST shall be screened by the procedures set forth separately.

Article 29 (Enrollment procedures and admission)
1. Applicants who have received notification of acceptance as a result of the screening specified in the foregoing article shall submit the designated documents to be admitted to NAIST.
2. The President shall admit applicants to NAIST upon completion of the procedures set forth in the foregoing subsection.

Article 30 (Admission to Doctoral Course)
Subject to screening by the Faculty Council, the President shall admit students to the Doctoral Course upon completion of the Master's Course of NAIST.

VIII. Standard Terms of Study and Maximum Years of Enrollment

Article 31 (Standard terms of study)
The standard terms of study at the Master's Course and Doctoral Course shall be two years and three years, respectively.

Article 31-2 (Standard terms of study)
1. When students apply to pursue a course of study in a planned manner over a certain period that exceeds a standard term of study stipulated in the foregoing article (hereinafter referred to as "Long-term Course), due to circumstances such as employment, approval for the Long-term Course may be given by the President.
2. Necessary matters related to Long-term Courses shall be stipulated separately.

Article 32 (Maximum years of enrollment)
Maximum years of enrollment in the Master's Course and Doctoral Course shall be four years and six years, respectively.

IX. Education at the Graduate School

Article 33 (Graduate school education)
Education at the Graduate School shall be provided by means of lectures on subjects and guidance on writing theses ("Research Guidance").

Article 34 (Courses, credits, and registration procedures)
The courses to be taught as set forth in the foregoing article, the credits allotted to the said courses, and registration procedures shall be provided for separately.

Article 35 (Calculation of credits)

1. Based on the general rule that one credit shall be composed of a total of 45 hours of studying by students, the following basis shall be adopted for calculating credits at NAIST, taking into consideration the educational effects and hours required for off-campus studying, which vary depending on how the subject is taught:

(1) For lectures and seminars, one credit shall require from fifteen up to thirty class hours.

(2) For experiments and practical classwork, one credit shall require from thirty up to forty-five class hours.

(3) When a combination of two or more methods of lectures, seminars, experiments, or practical classwork is employed for a course, one credit shall consist of class hours determined in light of the standards stipulated in the foregoing two subsections, in accordance with the combination of such methods.

2. Notwithstanding the provision of the foregoing subsection, the number of credits to be allotted to thesis writing and thematic research may be determined upon consideration of the amount of study needed therefor, if it is deemed appropriate to award credits based on an evaluation of the results of the study.

Article 35-2 (Publication of Standards for Evaluating Grades)

1. The Graduate School shall present to students, in advance, a clear outline of the methodology and contents of classes and Research Guidance, as well as a class and Research Guidance schedule for the year.

2. The Graduate School shall, when assessing students' academic achievement and theses and approving their completion, present them with a clear outline of the standards therefor, in advance, so as to ensure objectivity and rigidity, and shall conduct an assessment and approval process appropriately in accordance with said standards.

Article 35-3 (Organized Training for Improving Educational Contents)

1. NAIST shall conduct organized training and research for improving the contents and methodology used to give classes and Research Guidance.

2. Necessary matters related to organized training for improving educational contents shall be stipulated separately.

Article 36 (Awarding of credits)

Students who have completed each course can earn credits therefor upon passing the examination or acceptance of a research report.

Article 37 Deleted

Article 38 (Studying in a graduate school outside of NAIST)

1. Contingent on prior consultation with the graduate school offering classes, students may take a course offered by a graduate school outside of NAIST if the Dean of the Graduate School deems it educationally beneficial to do so, subject to screening by the Faculty Council.

2. Course credits that students have earned pursuant to the foregoing subsection shall be treated as credits earned internally, provided that the number of such credits shall not exceed ten.

3. The period of studying at another graduate school pursuant to subsection 1 of this article shall be counted toward the period of study at NAIST.

4. The provisions of the foregoing three subsections shall apply to cases in which students take classes from ① a correspondence program offered by a foreign school in Japan ② a foreign graduate school in compliance with the school education system of that country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology, or ③ the United Nations University graduate program.
5. Matters relating to taking of courses of other graduate schools shall be provided for separately.

Article 38-2（Approval of credits for courses completed at a foreign university during a leave of absence)
1. Students may earn credits for courses completed at foreign universities during a leave of absence if the Dean of their Graduate School deems it educationally beneficial to do so, subject to screening by the Faculty Council of the Graduate School.
2. Course credits that students have earned pursuant to the foregoing subsection shall be treated as credits earned internally, provided that the number of such credits shall not exceed ten.

Article 39 (Treatment of credits earned prior to admission to NAIST)
1. Credits that a student has earned at a graduate school prior to admission to NAIST, including credits that have been earned by the student as a non-degree student as defined in the Standards for the Establishment of Graduate Schools (1974 Ordinance of the Ministry of Education No. 28), may be treated as credits that have been earned by the student at NAIST after his or her admission thereto, if the Dean of the Graduate School deems it educationally beneficial to do so, subject to screening by the Faculty Council.
2. The number of credits that have been earned at another graduate school but are treated as having been earned at NAIST pursuant to the foregoing subsection shall not exceed ten.
3. Other matters relating to credits earned prior to admission to NAIST shall be provided for separately.

Article 40 (Research Guidance at another graduate school)
1. Contingent on prior consultation with the graduate school or research institution, students may receive Research Guidance offered by the graduate school or research institution outside of NAIST as needed if the Dean of the Graduate School deems it educationally beneficial to do so, subject to screening by the Faculty Council. However, the period during which students enrolled in the Master's Course are allowed to receive Research Guidance at another graduate school or research institution shall not exceed one year.
2. Research Guidance that students receive from another graduate school or research institution pursuant to the foregoing subsection may be treated as Research Guidance received by the students at the Graduate School of NAIST.
3. The period during which students receive Research Guidance pursuant to subsection 1 of this article shall be counted toward the period of study at NAIST.
4. Matters relating to Research Guidance at another graduate school or research institution shall be provided for separately.

X. Course and Degree Requirements

Article 41 (Requirements for completion of Master's Course)
1. To complete the Master's Course, students shall have been enrolled in the Master's Course for the standard term of study at the shortest, earn at least thirty credits in the subjects designated by the Graduate School, receive necessary Research Guidance, and pass the master's thesis evaluation and examination.

However, students who have achieved outstanding research results may complete the Master's Course after having been enrolled in the said course for one year at the shortest, instead of the standard term of study.
2. Pursuant to the provision of the foregoing subsection, an examination of research results on specified themes may be conducted in place of the master's thesis evaluation if the Dean of the Graduate School deems it appropriate to do so.

Article 42 (Requirements for completion of Doctoral Course)
1. To complete the Doctoral Course, students shall have been enrolled in the Doctoral Course for the standard term of study at the shortest, receive necessary Research Guidance, and pass the doctoral thesis evaluation and examination. However, students who have achieved outstanding research results may complete the Doctoral Course after having been enrolled in the said course for one year at the shortest, instead of the standard term of study.
2. The part of the provision of the foregoing subsection that reads "However, students who have achieved outstanding research results may complete the Doctoral Course after having been enrolled in the said course for one year at the shortest, instead of the standard term of study" shall read "However, students who have achieved outstanding research results may complete the Doctoral Course after having been enrolled in the said course for the period of three years less the period of enrollment in the Master's Course at the shortest, instead of the standard term of study," to apply to students who have completed the Master's Course at NAIST in one year at the shortest pursuant to subsection 1 of Article 41, or who have completed the master's course of a graduate school outside of NAIST taking between one and two years.
3. Notwithstanding the provisions of the foregoing two subsections, for students who have been admitted to the Doctoral Course after having been recognized as having academic ability equivalent to or greater than that of a master's degree holder pursuant to Article 156 of the Enforcement Regulations for the School Education Law, the requirements for completion of the Doctoral Course shall be: enrollment in the said course for three years at the shortest, receipt of necessary Research Guidance, and passing of the doctoral thesis evaluation and examination. However, students who have achieved outstanding research results may complete the Doctoral Course after having been enrolled in the said course for one year at the shortest, instead of three years.

Article 43 (Approval of completion)
Approval of completion of the Master's Course and Doctoral Course shall be given by the President, subject to screening by the Faculty Council.

Article 44 (Awarding of degrees)
1. Students who have completed the Master's Course or Doctoral Course shall be awarded a master's degree or doctoral degree, respectively.
2. In addition to the provision of the foregoing subsection, a doctoral degree shall be awarded to individuals who have submitted a doctoral thesis to NAIST, passed the doctoral thesis examination and been recognized as having academic ability equivalent to or greater than that of an individual who has completed the Doctoral Course at NAIST.
3. Matters relating to awarding of degrees shall be provided for separately.

Article 45 (Timing of completion)

1. The Master's Course and Doctoral Course shall be completed at the end of each semester.
2. Notwithstanding the provision of the foregoing subsection, the Master's Course and Doctoral Course may be completed during a semester if deemed necessary by the President.

Article 46 (Teaching qualifications)
1. Students who wish to obtain teaching qualifications shall earn the credits specified by the Teacher's Certificate Law (1949 Law No. 147) and the Enforcement Regulations for the Teacher's Certificate Law (1954 Ordinance of the Ministry of Education No. 26).
2. Teaching qualifications that can be obtained at the Graduate School of NAIST are as shown in the following table.

Graduate School of Science and technology	Department of Science and Technology	Teaching qualifications	Subject
		Junior high school qualifications	Science
		High school qualifications	Science Information

XI. Leave of Absence, Study Abroad, Readmission, Transfer from/to another School, Withdrawal, and Expulsion.

Article 47 (Leave of absence)
1. A student who must be absent from school for three consecutive months or longer due to illness, or for other reasons deemed justifiable by the President, may take a leave of absence with President's permission.
2. The President may order a student who is recognized to be too ill to attend school to take leave of absence.
3. When the grounds for the leave of absence have been resolved, the student may return to school with permission of the President.
4. The period of leave of absence shall be up to one year, provided, however, that the said period may be extended for up to another one year if there is any justifiable reason.
5. The period of leave of absence shall not exceed two years in total during enrollment in the Master's Course or Doctoral Course, respectively.
6. Notwithstanding the provision of subsections 4 and 5, a student may be given special permission to take a leave of absence if deemed appropriate by the President.
7. The period of leave of absence shall not be counted toward the standard term of study specified in Article 31 and the minimum years of enrollment specified in Article 32.

Article 48 (Study abroad)
1. A student who wishes to study at a graduate school or research institution abroad shall obtain permission of the President in advance.
2. The provisions of Article 38 and Article 40 shall apply for the treatment of credits earned during study abroad.

Article 49 (Readmission)
1. An individual who withdrew or was expelled from NAIST in the past and wishes to be readmitted to the Graduate School of NAIST may be permitted to do so by the President, subject to screening by the Faculty Council, only if doing so is deemed not to interfere in any way with the educational and research activities

of the Graduate School.
2. If readmission is permitted pursuant to the foregoing subsection, the Dean of the Graduate School shall decide whether to count the credits earned during the previous enrollment and years of the previous enrollment toward course requirements, subject to screening by the Faculty Council.

Article 50 (Transfer from another Graduate school)
1. A student who is enrolled in another graduate school outside of NAIST and wishes to transfer to NAIST may be permitted to do so by the President, subject to screening by the Faculty Council, only if doing so is deemed not to interfere in any way with the educational and research activities of NAIST.
2. If transfer to NAIST is permitted pursuant to the foregoing subsection, the Dean of the Graduate School shall decide whether to count credits earned during the previous enrollment and years of the previous enrollment toward course requirements, subject to screening by the Faculty Council.
3. The provisions of the foregoing two subsections shall apply to cases in which students are enrolled in a foreign graduate school in compliance with the school education system of that country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology (limited to schools stipulated in subsection 1, Article 102 of the School Education Law), or the United Nations University graduate program.

Article 51 (Transfer to a graduate school outside of NAIST)
1. A NAIST student who wishes to transfer to a graduate school outside of NAIST shall obtain permission of the President in advance.
2. If transfer to a Graduate School outside of NAIST is permitted pursuant to the foregoing subsection, it shall apply to cases in which students will enroll in a foreign graduate school in compliance with the school education system of that country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology, or the United Nations University graduate program.

Article 52 Deleted

Article 53 (Withdrawal)
A NAIST student who wishes to withdraw from NAIST shall obtain permission of the President in advance.

Article 53-2 (Expulsion)
A student shall be expelled from NAIST if he or she:
(1) Has been enrolled in NAIST for longer than the period specified in Article 32.
(2) Has been on leave of absence for longer than the period stipulated in Article 47, subsections 5 and 6.
(3) Has failed to pay the admission fee by the due date if the student has not been exempted from payment of the admission fee, has been exempted from payment of part of admission fee, has been allowed delayed payment of the admission fee, or has the payment exemption withdrawn.
(4) Has failed to pay the tuition fee by the due date and still not paid it even after receiving a reminder.
(5) Has been declared missing.
(6) Has deceased

XII. Entrance Examination, Admission and Tuition Fees

Article 54 (Amounts of the entrance examination, admission and tuition fees)

1. The entrance examination, admission and tuition fees shall be as shown in the following table.

Entrance examination fee	Admission fee	Annual tuition fee
30,000 yen	282,000 yen	535,800 yen

2. The tuition fee to be collected from students whose participation in a Long-term Course has been approved (hereinafter referred to as "Long-term Course Student") shall be the amount resulting from multiplying the annual tuition fee stipulated in the foregoing subsection by the number of years of the appropriate standard period of study and then dividing it by the number of years of the period of study approved for the individual student (hereinafter referred to as "Long-term Course Period"; when this amount contains an amount of less than 10 Yen, the amount shall be rounded up to the nearest multiple of ten.), notwithstanding the foregoing stipulation. However, the amount of annual tuition fee to be collected from students who were approved for the Long-term Course after enrolling into NAIST (including those whose Long-term Course Period was approved for extension, as stipulated separately) shall be the amount resulting from dividing the amount achieved from multiplying the annual tuition fee in the foregoing section by the number of years of the appropriate standard period of study and subtracting the total amount previously paid for annual tuition fees, by the number of years of the Long-term Course period minus the number of years already enrolled at NAIST (For those whose Long-term Course Period was approved for extension, the original period enrolled at NAIST (If in the middle of the academic year, until that year has ended) hereinafter the same.) (When this amount contains an amount of less than 10 Yen, the amount shall be rounded up to the nearest multiple of ten.)

Article 55 (Payment of the entrance examination fee)

1. Individuals who apply for admission, readmission or transfer to NAIST shall submit an application form and pay the entrance examination fee at the same time.
2. Notwithstanding the provision of the foregoing subsection, students who apply for admission by recommendation in accordance with Article 4 of MEXT Guidelines for International Scholarship Student System Implementation shall not have to pay entrance examination fees.

Article 56 (Payment of the admission fee)

1. Individuals who are to be admitted, readmitted or transferred to NAIST shall pay the admission fee by the due date specified by NAIST.
2. Notwithstanding the provision of the foregoing subsection, MEXT Scholarship Students (as defined in Article 2 of MEXT Guidelines for International Scholarship Student System Implementation) shall not have to pay admission fees.

Article 57 (Payment of the tuition fee)

1. Students shall pay the annual tuition fee in two equal installments for the spring semester (from April to September) and the autumn semester (from October to March of the following year).
2. The due dates of the tuition payment shall be in May and November except when delayed payment is permitted pursuant to Article 63.
3. Notwithstanding the provisions of the foregoing two subsections, students, by submitting an application, may pay the tuition fee for the autumn semester at the same time as paying the tuition fee for the spring semester.

4. Notwithstanding the foregoing provisions of subsections 1 and 2, students may, by submitting an application, pay the tuition fee for the spring semester or for the spring and autumn semesters of the year of admission, at the time when accepted for admission.
5. Notwithstanding the provision of subsection 1, MEXT Scholarship Students (as defined in Article 2 of MEXT Guidelines for International Scholarship Student System Implementation) shall not have to pay tuition.
6. When the Long-term Course Period is to be shortened, as separately stipulated, the amount of tuition to be collected at the time of approval for the shortening of the Long-term Course Period shall be the amount resulting from multiplying the annual tuition fee determined in accordance with subsection 2 of Article 54 of these regulations by the number of years enrolled at NAIST (If in the middle of the academic year, until that year has ended) and then subtracting the total amount already paid for tuition.
7. When declining of the Long-term Course is to be approved, as separately stipulated, the amount of tuition resulting from multiplying the annual tuition fee stipulated in subsection 1 of Article 54 by the number of years enrolled at NAIST and then subtracting the total amount of tuition fee already paid is to be collected at the time approval of declining the Long-term Course.

Article 58 (Amount and payment of the tuition fee in case of re-enrollment)
In case of re-enrollment, transfer from another school, and readmission ("Re-enrollment") during the spring or autumn semester, the tuition fee shall be paid in an amount of one twelfth of the annual tuition fee ("Monthly Fee") multiplied by the number of months from the month of Re-enrollment to the month preceding the next tuition payment. Payment shall be made in the month of Re-enrollment.

Article 59 (Amount of the tuition fee in case of completion of the course before the end of the academic year)
In case of completion of the course before the end of the academic year due to special circumstances, the tuition fee shall be paid in an amount of the Monthly Fee multiplied by the number of months of enrollment in NAIST.

Article 60 (Amount of the tuition fee in case of leave of absence)
1. Payment of tuition fee is not required during leave of absence.
2. The amount of the tuition fee for which payment is not required shall be the Monthly Fee multiplied by the number of months from the month following the leave of absence to the month preceding Re-enrollment.

Article 61 (Amount of the tuition fee in case of withdrawal)
1. In case of withdrawal, whether voluntary or forced, transfer to another school, or expulsion from NAIST during a spring or autumn semester, the tuition fee for the entire semester shall be paid.
2. The tuition of students which have been suspended shall be collected for the duration of the suspension.
3. Notwithstanding the provision of subsection 1, the tuition to be collected from students who have been removed from enrollment due to death or disappearance will be recalculated according to the number of months enrolled.

Article 62 (Exemption from payment of admission and tuition fees)
Those who fall under any of the following may be exempted from payment of all or part of the admission

fee or allowed delayed payment thereof:
1. Those who have difficulties paying the admission fee for financial reasons and also are recognized as having outstanding academic ability, or are recognized as having other justifiable reasons
2. Those who are recognized as having outstanding academic ability and distinguished personal attributes
3. Others who are recognized by the President as requiring this

Article 63
Those who fall under any of the following may be exempted from payment of all or part of the tuition fee or allowed delayed payment thereof:
1. Those who have difficulties paying the tuition fee for financial reasons and also are recognized as having outstanding academic ability, or are recognized as having other justifiable reasons
2. Those who are recognized as having outstanding academic ability and distinguished personal attributes
3. Others who are recognized by the President as requiring this

Article 64
Matters relating to exemption of payment of admission and tuition fees and delayed payment thereof shall be provided for separately.

Article 65 (Treatment of entrance examination, admission and tuition fees once paid)
1. Once paid, entrance examination, admission and tuition fees cannot be refunded.
2. Notwithstanding the provision of the foregoing subsection, the tuition fee shall be refunded in the following cases.
(1) If a student who paid the tuition fees for both the spring and autumn semester at the same time pursuant to the foregoing provision of Article 57 subsection 3 is to withdraw, transfer or be expelled from NAIST before September 30 of that school year, the tuition fee for the autumn semester shall be refunded.
(2) If a student who paid the tuition fee at the time when he or she was accepted for admission pursuant to the foregoing provision of Article 57-4 declares his or her intention to decline the acceptance by the last day of the month preceding the admission, the amount equivalent to the paid tuition fee shall be refunded.
(3) If a student who paid tuition fees pursuant to the provision of Article 57 is to complete his or her course before the end of the academic year due to special circumstances, the amount of the paid tuition fee less the Monthly Fee multiplied by the number of months of enrollment shall be refunded.
(4) If a student who paid tuition fees is to take leave of absence, the amount specified in Article 60-2 shall be refunded.
(5) In the case of removal from enrollment due to death or disappearance, tuition paid shall be refunded after deducting for the partial enrollment period.

XIII. Special Auditing Students, Special Research Students, Non-Degree Students, Research Students and Undergraduate Internship Students

Article 66 (Special auditing students)
1. Contingent on consultation with the students' graduate school, students enrolled in a graduate school outside of NAIST, whether domestic or foreign, may be admitted to NAIST as special auditing students to take a course at the Graduate School of NAIST if deemed beneficial for educational purposes by the Dean of the Graduate School, subject to screening by the Faculty Council.

2. If admission is permitted pursuant to the foregoing subsection, it shall apply to cases in which students are enrolled in a foreign graduate school in compliance with the school education system of that country, and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology, or the United Nations University graduate program.
3. Matters relating to special auditing students shall be provided for separately.

Article 67 (Special research students)
1. Contingent on consultation with the students' graduate school, students enrolled in another graduate school outside of NAIST, whether domestic or foreign, may be admitted to NAIST as special research students to receive Research Guidance at the Graduate School of NAIST if deemed beneficial for educational purposes by the Dean of the Graduate School, subject to screening by the Faculty Council.
2. Matters relating to special research students shall be provided for separately.

Article 68 (Non-degree students)
1. Individuals who are not NAIST students but wish to study one or more elective subjects at the Graduate School of NAIST may be admitted to NAIST as non-degree students and awarded credits only if doing so is deemed not to interfere in any way with the educational and research activities of the Graduate School by the Dean of the Graduate School, subject to screening by the Faculty Council.
2. Matters relating to non-degree students shall be provided for separately.

Article 69 (Research students)
1. Individuals who wish to conduct research on a specific theme at a Graduate School of NAIST may be admitted to NAIST as research students only if doing so is deemed not to interfere in any way with the educational and research activities of the Graduate School by the Dean of the Graduate School, subject to screening by the Faculty Council.
2. Matters relating to research students shall be provided for separately.

Article 69-2 (Undergraduate internship students)
1. Contingent on consultation with the students' university or institution, students enrolled in a university (including foreign universities) or technical college may be admitted to NAIST as undergraduate internship students to receive academic guidance in the graduate school of NAIST if deemed beneficial for educational purposes by the Dean of the Graduate School, subject to screening by the Faculty Council.
2. Matters relating to undergraduate internship students shall be provided for separately.

XIV. Rewards and Punishments

Article 70 (Rewards and punishments)
1. Students may be recognized by the President for outstanding achievements and valuable contributions, subject to screening by the Faculty Council.
2. The President may take disciplinary measures against students who have acted against the rules of NAIST or who have materially disturbed the educational and research activities of NAIST, following deliberation by the Faculty Council.
3. The disciplinary measures set forth in the foregoing subsection shall mean forced withdrawal, suspension from NAIST, and warning.

4. The period of suspension shall be subtracted from the maximum period of study stipulated in Article 32, but not added to the standard period of study stipulated in Article 31. However, if the period of suspension is less than three months, the semester shall be added to the standard period of study.

XV. Student Dormitories

Article 71 (Student dormitories)
1. NAIST has student dormitories.
2. Matters relating to the student dormitories shall be provided for separately.

XVI. Open Lectures

Article 72 (Open lectures)
1. NAIST may offer open lectures with a view to educating the public and contributing to cultural enrichment.
2. Matters relating to the open lectures shall be provided for separately.

XVII. Special Programs

Article 73 (Special programs)
1. NAIST may organize special programs for individuals who are not NAIST students and issue certificates certifying the successful participant's course completion.
2. Matters relating to the implementation of the foregoing subsection shall be provided for separately.

Supplementary provisions
(Effective date)
1. These Regulations shall come into effect on April 1, 2004.
(Transitional measures)
2. In case of amendment of the Regulations of the Nara Institute of Science and Technology, the Regulations before the amendment shall remain applicable to the students who are enrolled in NAIST as of March 31, 2004 ("Existing Students") and also to the students who are readmitted or transferred to NAIST after April 1, 2004 if they are in the same grade as the Existing Students.

Supplementary provision
These Regulations shall come into effect on April 1, 2005.

Supplementary provision
These Regulations shall come into effect on April 21, 2005, while the Regulations of the Nara Institute of Science and Technology as amended hereunder shall be applied from April 1, 2005.

Supplementary provision

These Regulations shall come into effect on November 17, 2005.

Supplementary provision
These Regulations shall come into effect on April 1, 2007.

Supplementary provision
These Regulations shall come into effect on January 24, 2008, while the Regulations of the Nara Institute of Science and Technology as amended hereunder shall be applied from December 26, 2007.

Supplementary provision
These Regulations shall come into effect on April 1, 2009.

Supplementary provision
These Regulations shall come into effect on April 1, 2010.

Supplementary provision
These Regulations shall come into effect on December 1, 2010.

Supplementary provision
These Regulations shall come into effect on December 1, 2010.

Supplementary provision
(Effective date)
1. These Regulations shall come into effect on April 1, 2010.
2. Notwithstanding the provision of revised Article 5, the Graduate School of Information Science Department of Information Processing, Department of Information Systems and Department of Bioinformatics and Genomics, along with Graduate School of Biological Science Department of Cell Biology and Department of Molecular Biology shall be maintained until the students enrolled in these departments as of March 31, 2011 are no longer enrolled.
(Enrollment capacity for 2011, 2012 school year)
3. Notwithstanding the provision of Article 21 of these Regulations, the enrollment capacity for the 2011 and 2012 school years shall be as shown in the following table.

Fiscal Year	Graduate school	Department	Admission capacity		Enrollment capacity
			Master's Course	Doctoral Course	
2011	Information Science	Information Science	135	40	175
		Information Processing			96
		Information Systems			77
		Bioinformatics and Genomics			59
		Total	135	40	407
	Biological Sciences	Biological Sciences	125	37	162
		Cell Biology			81
		Molecular Biology			101

		Total	125	37	344
2012	Information Science	Information Science	135	40	350
		Information Processing			18
		Information Systems			14
		Bioinformatics and Genomics			11
		Total	135	40	393
	Biological Sciences	Biological Sciences	125	37	324
		Cell Biology			15
		Molecular Biology			19
		Total	125	37	358

(Transitional measures concerning attainable qualifications for teacher licensing at the Graduate School)

4. Notwithstanding the provision of revised Article 46 subsection 2 of these Regulations, the types and subjects of teaching licenses attainable at the departments in supplementary provision 2 shall depend upon previously offered licensing.

Supplementary provision

These Regulations shall come into effect on April 1, 2011.

Supplementary provision

These Regulations shall come into effect on April 1, 2012.

Supplementary provision

These Regulations shall come into effect on June 1, 2012.

Supplementary provision

These Regulations shall come into effect on February 1, 2013.

Supplementary provision

These Regulations shall come into effect on April 1, 2013.

Supplementary provision

These Regulations shall come into effect on April 1, 2014.

Supplementary provision

These Regulations shall come into effect on December 1, 2014.

Supplementary provision

These Regulations shall come into effect on April 1, 2015

Supplementary provision

These Regulations shall come into effect on November 26, 2015

Supplementary provision

These Regulations shall come into effect on May 17, 2016

Supplementary provision
These Regulations shall come into effect on December 1, 2016

Supplementary provision
These Regulations shall come into effect on April 1, 2017

Supplementary provision
(Effective date)
1. These Regulations shall come into effect on April 1, 2018.
(Transitional measures concerning the Graduate Schools and Departments)
2. Notwithstanding the provision of revised Article 5 of these Regulations, the Graduate School of Information Science, Department of Information Science, Graduate School of Biological Sciences, Department of Biological Sciences, Graduate School of Materials Science, and the Department of Materials Science shall be maintained until the students enrolled in these departments as of March 31, 2018 (Current Students) are no longer enrolled.
(Enrollment capacity for 2018, 2019 school year)
3. Notwithstanding the provision of Article 21, the enrollment capacity for the 2018 and 2019 school years shall be as shown in the following table.

Fiscal Year	Graduate school	Department	Admission capacity		Enrollment capacity
			Master's Course	Doctoral Course	
2018	Science and Technology	Science and Technology	350	107	457
	Information Science	Information Science			215
	Biological Sciences	Biological Sciences			199
	Materials Science	Materials Science			150
2019	Science and Technology	Science and Technology	350	107	914
	Information Science	Information Science			40
	Biological Sciences	Biological Sciences			37
	Materials Science	Materials Science			30

(Transitional measures concerning Current Students)
4. The education of Current Students in the continuing Graduate Schools of subsection 2 of this article, notwithstanding the provisions of these revised regulations, shall depend upon the previous regulations.

Supplementary provision
(Effective date)
1. These Regulations shall come into effect on April 1, 2019.

(Transitional measures concerning attainable qualifications for teacher licensing at the Graduate School)
2. Notwithstanding the provision of revised Article 46 subsection 2 of these Regulations, the types and subjects of teaching licenses attainable shall remain applicable to the students who are enrolled in NAIST as of March 31, 2019 (“Existing Students”) and also to the students who are readmitted or transferred to NAIST after April 1, 2019 if they are in the same grade as the Existing Students.

Schedule (supplementary to Article 21)

		Master’s Course	Doctoral Course	
Science and Technology	Science and Technology	350	107	1,021

Regulations for Student Commendation of Nara Institute of Science and Technology

December 7, 2004
Regulations No. 89

Article 1 (Purpose)
The purpose of these Regulations is to stipulate matters relating to commendation of performance worthy of public recognition that has been achieved by students (including groups of students) of the Nara Institute of Science and Technology ("NAIST") pursuant to the provision of Article 70 of the NAIST Regulations.

Article 2 (Commendation criteria)
1. NAIST shall commend students for:
(1) Hard work in academic studies that sets a good example for other students;
(2) Remarkable performance achieved in academic and research activities;
(3) Remarkable performance achieved in social activities;
(4) Remarkable performance achieved in extracurricular and other activities; or
(5) Other conduct judged to be worthy of public recognition.
2. Students to be commended pursuant to the foregoing subsection shall include those who are dead at the time of commendation.

Article 3 (Nomination)
Administrative staff or the Dean of the relevant Graduate School shall submit a letter of nomination (Form No. 1 attached hereto) to the President to recommend a student who is deemed to meet any of the commendation criteria specified in the foregoing subsection for commendation.

Article 4 (Decision on commendation of student)
The President shall decide whether to commend the student based on the nomination specified in the foregoing article.

Article 5 (Commendation)
1. The President shall award a certificate of commendation (Form No. 2 attached hereto) to the student whom it was decided should be commended pursuant to the provision of the foregoing article.
2. The President may present a commemorative gift to the student in addition to the certificate of commendation specified in the foregoing subsection.

Article 6 (Timing of commendation)
The President shall determine the timing of commendation, in consideration of the timing of the degree conferring ceremony or the nature of the commendation.

Article 7 (Clerical work)
The Educational Affairs Division of the Planning and Academic Affairs Department shall be responsible for

handling clerical work necessary for student commendations.

Article 8 (Miscellaneous provision)
Other matters relating to student commendations shall be provided for separately.

Supplementary provision
These Regulations shall come into effect on December 7, 2004.

Supplementary provision
These Regulations shall come into effect on November 15, 2006 and be retrospectively applied from April 1, 2006.

Supplementary provision
These Regulations shall come into effect on July 26, 2007 and be retrospectively applied from April 1, 2007.

Supplementary provision
These Regulations shall come into effect on April 1, 2015.

Regulations for NAIST Excellent Student Scholarship Program

September 21, 2010
Regulations No. 4

Article 1 (Objective)
These regulations provide for necessary matters regarding the scholarship program that is intended to help develop excellent human resources by giving incentives to and supporting excellent students of Nara Institute of Science and Technology (hereinafter referred to as "NAIST").

Article 2 (Name)
The name of the scholarship program shall be the NAIST Excellent Student Scholarship Program.

Article 3 (Qualified students)
Students qualified to receive scholarships under the scholarship program (hereinafter referred to as "qualified students") shall be students who are enrolled in the first year of a doctoral course at NAIST in an academic year in which qualified students are selected (hereinafter referred to as "the academic year") and whose academic performance is outstanding and whose character is excellent, excluding foreign students financed by the Japanese government and those selected for the NAIST International Scholar Program.

Article 4 (Maximum number of qualified students)
The maximum number of qualified students shall be 15 in each academic year.

Article 5 (Method of scholarship support)
The scholarship support shall be provided in the form of exemption from payment of all tuition fees for the academic year.

Article 6 (Timing of selecting qualified students)
Qualified students shall be selected in April.

Article 7 (Notification of the number of scholarship candidates subject to recommendation)
The President shall set the number of candidates for qualified students (hereinafter referred to as "scholarship candidates") subject to recommendation for each graduate school and notify the deans in advance.

Article 8 (Selection of scholarship candidates)
1. The deans shall set the criteria for screening scholarship candidates (hereinafter referred to as "the screening criteria"), announce on campus the screening criteria together with the number of candidates for qualified students, and solicit applications for scholarship candidates.
2. The deans shall select scholarship candidates from among the applicants based on the screening criteria set forth in the preceding paragraph, and recommend the scholarship candidates to the President, also providing the screening criteria and the order of recommendation.

Article 9 (Screening of qualified students)

1. The President shall set up a NAIST Excellent Student Screening Committee (hereinafter referred to as "the Committee") to screen qualified students based on the deans' recommendations.
2. The Committee shall consist of the following members:
(1) President
(2) Executive Director appointed by the President
(3) Vice President appointed by the President
(4) Deans
3. The Committee shall have a chairperson, who shall be the President.
4. The chairperson shall preside over the meetings of the Committee.
5. If the chairperson becomes unable to serve, a Committee member appointed by the chairperson in advance shall perform the duties of the chairperson.
6. If the chairperson finds it to be necessary, individuals other than Committee members set forth in Paragraph 2 shall be allowed to attend the Committee meetings.

Article 10 (Selection of qualified students)
1. The President shall select qualified students based on screening by the Committee.
2. The President shall notify the deans of the screening results, and announce the screening results on campus.

Article 11 (Commendation and presentation session)
The President shall commend qualified students, and shall host a presentation session by the qualified students.

Article 12 (Clerical work)
Clerical work regarding the scholarship program shall be undertaken by the Educational Affairs Division of the Planning and Academic Affairs Department.

Article 13 (Miscellaneous provisions)
In addition to the matters provided for in these regulations, necessary matters concerning the scholarship program shall be provided for separately.

Supplementary provisions
1 (Effective date)
These regulations shall come into effect on October 1, 2010.
2 (Transitional measures)
For academic year 2010 alone, the scholarship support shall be provided in the form of exemption from payment of half the tuition fees for the academic year regardless of the provisions of Article 5, and qualified students shall be selected in October regardless of the provisions of Article 6.

Supplementary provisions
These regulations shall come into effect on April 1, 2015.

Nara Institute of Science and Technology
Student Discipline Regulations

December 15, 2009
Regulations No. 5

Article 1 (Purpose)
These regulations stipulate the necessary matters concerning the discipline and educational measures under Article 70 Clause 2 of the Nara Institute of Science and Technology Regulations (Regulations No. 1, 2004).

Article 2 (Scope of application)
1. These provisions shall apply to students, non-degree students, and research students (hereinafter simply referred to as the "Students") who are enrolled at Nara Institute of Science and Technology (hereinafter referred to as "NAIST").
2. For those who are research assistants under Article 1 Clause 2 Item 8 of the Nara Institute of Science and Technology Employment Regulations for Education and Research Fixed-term Contract Employees (Regulations No. 1, 2005) or teaching assistants under Article 1 Clause 2 Item 9 of those provisions, in addition to these regulations, the stipulations of Article 34 through Article 36 of said regulations shall also apply in accordance with the type of illegal action.

Article 3 (Illegal actions subject to discipline)
The illegal actions subject to discipline or educational measures (hereinafter referred to as "Discipline") for the Students shall be as stated below.
(1) Actions that violate NAIST's rules and/or regulations
(2) Actions that obstruct NAIST's education or research activities

Article 4 (Types of discipline)
The content of discipline shall be according to the stipulations of the relevant item below, in accordance with the type of discipline stated in the item.
(1) Expulsion: The student shall be expelled, and re-admission shall not be allowed.
(2) Suspension: The student shall not be allowed to come to NAIST for a fixed period of six months or an indefinite period.
(3) Admonishment: The person shall be given a written warning and cautioned about future actions.

Article 5 (Determination of Discipline)
1. When determining whether and what type of Discipline is necessary, comprehensive consideration shall be given to the matters stated below and then a decision shall be made.
(1) The motive, attitude toward, and result of the illegal action
(2) The deliberate intention or degree of negligence
(3) The degree of damage, including the mental suffering of people affected
(4) The effects on other Students and society
(5) Whether the student has committed illegal actions in the past
(6) The student's attitude toward their studies, and his-her response after the illegal action
2. Determination of the type of discipline shall be according to the Examples of Disciplinary Action

Standards (appendix). Provided, however, that depending on the content of the individual case, there may also be cases that do not follow the Examples of Disciplinary Action Standards.
3. For illegal actions not listed in the Examples of Disciplinary Action Standards, it shall be possible to use the Examples of Disciplinary Action Standards for reference and then determine the discipline.

Article 6 (Reporting incidents)
In the event that an illegal action that may be subject to Discipline has occurred, the Dean of the graduate school to which the Student who conducted that illegal action belongs (hereinafter referred to as the "Dean of the Relevant Graduate School") shall promptly ascertain the facts, take the necessary measures such as restoring matters to their original state, and make a report to the President.

Article 7 (Authorizing investigation and deliberation)
In the event that the President receives a report stipulated under Article 6 and recognizes that there was an illegal action that may be subject to discipline, he/she shall order the Executive Director in charge of education to investigate the facts and deliberate whether discipline is necessary and the type of discipline (hereinafter referred to as the "Investigation and Deliberation").

Article 8 (Suspension)
1. In the event that the action by the Student who will be subject to the Investigation and Deliberation by the student discipline committee stipulated in Article 9 (hereinafter referred to as the "Student Subject to Investigation") is clearly an illegal action that is subject to discipline, and it is certain that punishment of expulsion or suspension shall be issued, the President may order tentative suspension from NAIST before a decision is made under the provisions of Article 17.
2. A Student who has been ordered suspended from NAIST under the previous clause shall not be allowed to come to the Institute.
3. Said period of suspension from NAIST shall be included in the official suspension period.

Article 9 (Student discipline committee)
In order to conduct the Investigation and Deliberation stated in Article 7, the Executive Director in charge of education shall establish a student discipline committee (hereinafter referred to as the "Committee").

Article 10 (Committee organization)
1. The Committee shall be comprised of the persons listed below.
(1) The Executive Director in charge of education
(2) The Director General
(3) The Dean or Vice Dean of each graduate school
(4) The Director of the Planning and Academic Affairs department
(5) Other persons the Executive Director in charge of education recognizes as necessary
2. The Committee shall have a chairperson, and the Executive Director in charge of education shall fill this position.
3. The Committee may not conduct proceedings unless at least two-thirds of the members are in attendance.

Article 11 (Non-member attendance)
The Committee may request attendance of persons it recognizes as necessary and ask their opinions.

Article 12 (Explanations)
When conducting an investigation of the facts, the Student Subject to Investigation shall be notified of the fact that an investigation will be conducted and shall be given the opportunity to offer an oral or written explanation. In such cases, in the event that, without a valid reason, that Student does not appear to offer an oral explanation or does not submit a written explanation, it shall be deemed that he or she has waived the right to offer an explanation.

Article 13 (Investigation and report of deliberation results)
The Executive Director in charge of education shall report the Committee's Investigation and Deliberation results to the President.

Article 14 (Dean notification)
The President shall report the results of the Investigation and Deliberation that were reported by the Executive Director in charge of education to the Dean of the Relevant Graduate School.

Article 15 (Relation to other agreements)
Notwithstanding the stipulations of Article 6 through Article 13, in the event that NAIST's other rules and regulations have stipulations concerning illegal action investigations, matters for these investigations of the respective illegal action shall be according to those stipulations.

Article 16 (Faculty Council deliberation)
1. The Dean of the Relevant Graduate School shall deliberate the results of the Committee's Investigation and Deliberation within the faculty council.
2. The Dean of the Relevant Graduate School shall report the Faculty Council's deliberation results to the President.

Article 17 (Decision of disciplinary action)
1. The President shall make the decision on whether and what type of discipline is necessary considering the report stated in the previous article by the Dean of the Relevant Graduate School.
2. When making the decision of the previous clause, in the event that the President recognizes it is necessary, he or she may order another Investigation and Deliberation. In such cases, the stipulations of Article 7 through Article 16 shall apply correspondingly.

Article 18 (Notification of disciplinary action)
1. In the event that a decision has been made to conduct disciplinary action under the provisions of Article 17, the President shall notify the Student Subject to Investigation, the Executive Director in charge of education, and the Dean of the Relevant Graduate School of the type of discipline and the reason for punishment.
2. Notification to the Student Subject to Investigation shall be made by issuing the relevant Student a notification of disciplinary action (appendix form no. 1). Provided, however, that when issuance is not possible, notification shall be made by another appropriate method.

Article 19 (Disciplinary action effectiveness)

Disciplinary action shall come into effect on the date the notification of disciplinary action is issued. Provided, however, that in unavoidable cases this shall not apply.

Article 20 (Cancellation of indefinite suspension)
1. In the event that it has been recognized that, for a Student on indefinite suspension, it is appropriate to cancel suspension after six months have passed since the date it went into effect, the Dean of the Relevant Graduate School shall have the matter deliberated by the Faculty Council and then report the results to the President and the Executive Director in charge of education.
2. The Executive Director in charge of education shall inform the President of his or her opinion concerning the appropriateness of cancelling suspension. In such cases, the Executive Director in charge of education shall consult the Committee.
3. The President may, in light of the report from the Dean of the Relevant Graduate School and the opinion from the Executive Director in charge of education, cancel the suspension.

Article 21 (Rescreening)
1. In the event that there is factual error, discovery of new facts, or other valid reasons, a Student who received disciplinary action may attach materials that will serve as proof and use the request for rescreening form (appendix form no. 2) to make a request to the President for rescreening.
2. In the event it is recognized that rescreening is necessary, the President may order another Investigation and Deliberation of the facts. In such cases, the provisions of Article 7 through 17 shall apply correspondingly.

Article 22 (Change of enrollment)
1. In the event that a Student Subject to Investigation has made a request to withdraw or take a leave of absence before a decision under the provisions of Article 17, it shall not be permitted.
2. In the event that a Student who is under suspension has made a request to take a leave of absence, it shall not be permitted.
3. In the event that a Student who is on a leave of absence will be disciplined with a suspension, the permission for that Student’s leave of absence shall be rescinded.

Article 23 (Educational measures)
1. In the event that the President receives a report described in Article 6 and recognizes it is in response to an illegal action not suitable for discipline, or in the event that he or she decides not to conduct disciplinary action under the provisions of Article 17, when it is recognized as necessary he or she shall order the Dean of the Relevant Graduate School to take educational measures.
2. In the event that an order stipulated in the previous clause, the Dean of the Relevant Graduate School shall give the Student who conducted the relevant illegal action a written or oral warning as an educational measure.
3. The educational measure stipulated in the previous clause shall correspond to the types of educational measures listed in each of the items below, and shall follow the stipulations of the relevant item.
(1) Strong warning: A strong warning about the illegal action will be made in writing.
(2) Oral warning: A warning about the illegal action will be made orally.

Article 24 (Record of disciplinary action)

In the event that a disciplinary action has been decided under the provisions of Article 17 for a Student (excluding cases in which, as a result of rescreening under the provisions of Article 21, a decision was made that disciplinary action shall not be conducted), the content of the disciplinary action shall be recorded in the guidance record stipulated in Article 24 of the Regulations for Enforcing the School Education Act (Ministry of Education, Science, Sports and Culture Order No. 11, 1947). Provided, however, that the content of disciplinary action that was recorded in the guidance record shall not be included in certificates issued by NAIST.

Article 25 (Administrative duties)
Administrative duties related to discipline, etc. for the Students shall be the responsibility of the Educational Affairs Division of the Planning and Academic Affairs Division.

Supplementary provision
These Regulations shall come into effect on December 15, 2009.

Supplementary provision
These Regulations shall come into effect on December 1, 2013.

Supplementary provision
These Regulations shall come into effect on April 1, 2015.

Appendix (related to Article 5)

Examples of disciplinary action standards

Classification	Type of illegal action	Discipline standards
Criminal actions, etc.	Heinous criminal acts or attempted criminal acts such as murder, theft, rape, or arson	Expulsion
	Action that inflicts injury	Expulsion or suspension
	Drug-related criminal acts	Expulsion or suspension
	Criminal acts such as theft, shoplifting, fraud, or violent acts that do not injure other persons	Expulsion, suspension, or admonishment
	Groping or molestation acts (including voyeurism, surreptitious photography or videos, or other actions that are a nuisance to others)	Expulsion, suspension, or admonishment
	Stalking acts	Expulsion, suspension, or admonishment
	Malicious unauthorized use of a computer or network	Expulsion or suspension

	Unauthorized use of a computer or network	Suspension or admonishment
Traffic accidents	Causing a traffic accident involving death or bodily injury leaving serious permanent damage, and caused by malicious actions such as driving without a license, driving under the influence of alcohol, or reckless driving	Expulsion
	Causing a traffic accident involving bodily injury, and was caused by malicious actions such as driving without a license, driving under the influence of alcohol, or reckless driving	Expulsion or suspension
	Malicious violation of traffic laws, such as driving without a license, driving under the influence of alcohol, or reckless driving	Suspension or admonishment
	Causing a traffic accident involving death or bodily injury leaving serious permanent damage, and caused by negligent actions such as failing to look ahead carefully	Suspension
	Causing a traffic accident involving bodily injury, and was caused by negligent actions such as failing to look ahead carefully	Suspension or admonishment
Research activity	Fabricating, falsifying, or plagiarizing data or investigation results that are indicated in research results that were announced	Expulsion, suspension, or admonishment
Experimen	Dishonest or malicious actions such as vicariously taking an examination, etc. conducted by NAIST	Expulsion or suspension
	Dishonest actions such as cheating on examinations, etc. conducted by NAIST	Suspension
	Cases of not following warnings or instructions by a supervisor during an examination, etc. conducted by NAIST	Admonishment
Illegal actions at NAIST	Violent actions that significantly hinder NAIST's education, research, management, or operations	Expulsion, suspension, or admonishment
	Trespassing into a NAIST-managed building, or using or occupying it without authorization	Expulsion, suspension, or admonishment
	Breaking, defiling, or illegally rebuilding a NAIST-managed building or property	Suspension or admonishment
	Violent actions, intimidation, detention, or confinement of NAIST constituents	Expulsion, suspension, or admonishment
	Actions that considered to be sexual or academic harassment	Expulsion, suspension, or admonishment

奈良先端科学技術大学院大学　学歌

作曲：古川　聖

奈良先端科学技術大学院大学学歌

一、春日山　瑞雲なびき
あけぼのの　空の遙けさ
知の森の　最先端へ
独創の　清風を送る
奈良先端科学技術大学院
高き理想の階のぼる

二、富雄川　絶ゆることなく
せせらぎの　光は流る
盛りゆく　未来の蒼天へ
永遠の　真理を示す
奈良先端科学技術大学院
輝く知性の階のぼる

三、生駒山　夕越え見れば
難波津に　集う百船
情報は　平城に集まり
先端の　叡知を繋ぐ
奈良先端科学技術大学院
新たな時代の階のぼる
